Chancellor addresses graduates at 32nd college commencement

PASADENA - Sixty-three Ambassador College seniors were grad-uated at the college's 32nd commencement exercises in the lower gardens here May 19. The ceremony was videotaped by the Work's Media Services Department.

Chancellor Herbert W. Armstrong delivered the invocation, thanking God for the graduates and peace at Ambassador College.

The graduates marched in proces-sion to "Pomp and Circumstance," performed by the Ambassador College Band, directed by Ross Jutsum. The band played "God of Our Fathers" for the recessional.

In his graduation address, Mr. Armstrong explained that educators of this world don't realize "man was made incomplete." The chancellor added that education of

irr. this world is materialistic Mr. Armstrong talked about build-ing character, defining what it is: right knowledge plus right attitude plus right action. "It all gets down to attitudes," he stated.

The chancellor traced the beginnings of education and expounded education of the future - that it will begin in the home, in the cradle, within the first month of life.

Mr. Armstrong said he believes there will be education in classrooms in the world tomorrow, but that education will be "refined greatly."

"I don't think we are the perfect college of the future, but we're a fore-runner to it," he continued. "This is a college that has been recapturing the true values - we haven't gotten them all

He then urged the graduates, as disciples going into the world, to let

their lights shine, praising the students for good works in the refugee camps in Thailand and at the archaeological project in Jerusalem.

Before Mr. Armstrong's address. Student Body President Randy Duke encouraged students to have a "burn ing inner fire for true values," in his talk titled, "Fan the Flame."

"Keep your goal focused and let truth guide you," said Mr. Duke.

The Ambassador Chorale, directed by John Daneri Schroeder, performed "I Was Glad When They Said Unto Me" and "You'll Never Walk Alone"

Never Walk Alone." Following Mr. Armstrong's ad-Ames presented the Watson Wise Incentive Award of \$1,000 to junior Scott Alan Gjesvold.

Mr. Wise, a Texas businessman, philanthropist and former delegate to the United Nations, began the scholarship at the college in Pasadena in 1978 "in recognition of the high ideals of this institution."

The award is given to the student deemed most worthy in exemplifying the qualities of industry, scholar ship and other activities within the area of Christian citizenship.

Deputy Chancellor Raymond F McNair conferred degrees on the graduates.

According to the Registrar's Office, those who received bachelor of arts degrees are:

Dennis E. Beery, Anthony Charles Bosserman, Nolan Lee Boyd, Andrew Clinton Burdette, Wayne F. Childers, Galen L. Dav-enport, Kenneth Lee Deel, Tina Dennis, Peter S. Ditzel, David James Douglas, Janice Dow-

With highest distinction (at least 3.80): Sylvia Owen.

Ministers raised in rank during Holy Days Ministerial ordinations released

PASADENA - Ministerial Services here reported the following ordinations:

Canadian regional director Colin Adair raised Dan Hope to the rank of preaching elder in the Abbots-ford, B.C., church, the last Day of Unleavened Bread,

In Australia, William Sidney of the Gold Coast church was raised to preaching elder by regional director Robert Morton, assisted by David Noller, pastor of the Brisbane North and Caboolture churches, March 31.

April 10, Mr. Noller, assisted by cal elder Reg Wright, ordained Kevin W. Thomson, formerly a deacon, to the rank of local church elder to serve in the Brisbane North church

April 25, Mr. Morton ordained Kenneth Murray a local elder to serve in that area.

In Mexico, Thomas Turk, pastor of the Mexican churches, ordained Salvador Barragan a local church elder April 3.

William Grant of the Lancaster, England, church was made a local church elder May 2 by regional director Frank Brown and St. Albans pastor Paul Suckling.

Mauricio Perez, a ministerial trainee in Bogota, Colombia, was ordained a local elder April 4 by

evangelist Leon Walker.

U.S. ordinations

Gordon Harry was raised in rank to preaching elder by James Jenkins, pastor of the Union, N.J., church, and Steven Schantz was ordained a preaching elder in the Middlesboro, Ky., congregation by church pastor Melvin Dahlgren. Both of these ordina-tions took place on the first Day of Unleavened Bread. Also ordained that day were

several deacons who became local church elders. They are Ward Shamblin, ordained by Lubbock, Tex., church pastor Keith Walden; William Rowland Middleton, ordained by Joplin, Mo., church pastor Vince Szymkowiak; Shannon Ray Lucas of the Kansas City, Mo., East congregation, ordained by church pastor Russell Duke.

Rhoton Cross was ordained by Fresno and Visalia, Calif., pastor Alton "Don" Billingsley to serve in Visalia; Dennis Hagquist was ordained by Stanley McNiel, pastor of the Brainerd, Minn., church; James Nickelsen of the Fort Wayne, Ind., church was ordained by pastor Steve Smith; Orville Bumgardner of the Pikeville, Ky., congregation was ordained by church pastor Warren

Heaton III, and Stanton Erickson was ordained by Lake Crystal, Minn., pastor Leonard Schreiber.

Local elders ordained the first Day of Unleavened Bread were Raymond Taylor, by Fred Kellers, pas-tor of the Little Rock, Ark., church; and ministerial trainee David Myers, assigned to Albany, N.Y., and Springfield, Mass., by church pastor Lyle Welty.

Final Holy Day

On the last Day of Unleavened Bread, evangelist Gerald Waterhouse, assisted by Salem and Albany. pastor David Mills, raised Randy Stiver to preaching elder.

Three former deacons ordained local church elders that day were Beal Beaver of the Fayetteville, Ark., church, by evangelist Roderick Mer-edith; Elmer Wilke of the Kent, Wash., congregation, by evangelist Dennis Luker, who was assisted by church pastor Richard Parker; and Michael Grovak, ordained to serve in the Chicago West congregation by pastor Roy Holladay.

Jeffrey Rageth was ordained a local church elder May 8 by St. Paul, Minn., pastor Bill Jahns; and Marc Segall, pastor of the Chico and Eureka, Calif., churches, ordained Warren Waian of Chico a local church elder to serve there.

HWA Receives Plague

PASADENA — Pastor General Herbert W. Armstrong was pre-sented a plaque bearing the Armstrong coat of arms May 11 by Evan Williams on behalf of the 1982 graduating class of Ambass dor College here.

Mr. Williams, 1981-82 senior class president, presented the plaque and a folder with a brief history of the Armstrong clan in Scotland to the pastor general during the annual senior banquet in the lower lobby of the Ambassador Auditorium. Members of the Advisory Council of Elders and of the college administration and faculty were present.

Mr. Armstrong thanked the seniors for the gift, stating that he was going to hang it in his campus residence, site of formal dinners for seniors during the academic year.

According to The Clans and Tartans of Scotland by Robert Bain, the Armstrong clan motto is *Invictus Maneo* ("I remain unvan-quished"). The seniors substituted "Recapture True Values" for Invictus Maneo on the plaque presented to Mr. Armstrong.

Mr. Bain's account records that the traditional origin of the Arnistrong clan came from a man named Fairbairn, armor bearer for a king of Scotland. In tradition the king, whose name is unknown. suffered the loss of his horse during a battle

Tradition says Fairbairn, seeing the king's loss, grasped the king by his thigh and set him on Fairbairn's horse. For this service, the king granted Fairbairn land on the borders of Scotland, and gave him the name Armstrong.

The first family of the Armstrong name in Scotland is found in Liddesdale in A.D. 1376.

Falklands war: test site for World War III?

PASADENA-Public attention is focused on the awesome power of nuclear weapons. But until the erup-tion of hostilities in the South Atlantic between Britain and Argentina few had firsthand knowledge of the revolutionary developments in conventional weapons

Experts say that this war, with its first-time use of computerized stateof-the-art weaponry, gives indica-tions of being the "proving ground" for World War III.

Spanish civil war parallel

Time magazine, May 17, drew a parallel between the budding war in the South Atlantic and a previous one

"Just as the Spanish civil war in the 1930s proved to be a testing ground for arms and strategies later used in World War II, military planners around the world are viewing the battle of the South Atlantic as a trial of high-technology weapons ships and aircraft never before used in combat." (Emphasis ours.)

The battle of the Falklands, adds Time, has "become a 20th century battle of microchips and comput-

As I write, it's final exam time at Ambassador College. In the evening

photographers and artists on our editorial staff, and every year about

this time they start gearing up. Stu-dents endure much stress and pres-

sure during that final two-hour exam. If only, many wish, the exams

could be stretched out over a longer period of time. If you could determine how long

your final exam could be, how long would you want it? Fifteen min-

utes? A half hour? Even a whole

day? What if you had a final exam that

was 100,000 hours long? And along

was too, you not stong - And along with the extra time, you could freely check your class notes, and even your textbook. Plus, you could get advice and answers to your prob-lems from the instructors! Not a bad

What we're talking about here is

the final exam commonly known as your job. If you work, let's estimate,

about 50 years of your life, you end up with about 100,000 hours (give

or take a few thousand) hours on the

job. You may not have the greatest job

right now. Maybe it's boring. But what you consider dull and boring is

often very important in God's sight. Remember that everything physical

around you isn't going to be here long (II Peter 3:10-11). Therefore, as members of God's Church, our

attitudes about our responsibilities

need to reflect God's attitudes.

which are attitudes of *excellence*. Whether window washers, ac-countants, homemakers or any other occupation, we have the

responsibility of being the best that we can be, think and do.

test eh?

ers, of decisions and reactions far too fast for the human brain to make."

(Emphasis ours.) "Says a weapons expert for Jane's Yearbooks, the authoritative mili-tary reference volumes: 'Today's wars are a battle of computer vs. computer.

computer." The technology on display is dazz-ling — and deadly. Britain's Sea Harrier, for example, a vertical/ short takeoff and landing (V/STOL) attack plane, is drawing much attention for its maneuver ability. The plane can stop dead in midair, turn on a dime and leap straight upward to dodge an oncoming enemy missile. One Sea Harrier crashed over the

Falklands simply because a trailing Argentine jet could not get away from its midair stall and hit it from behind.

Even greater attention, however, is being given to a new generation of missiles and bombs. "The Tigerfish MK 24 torpedo used by the British," continues the Time report, "speeds toward its target at about 58 m.p.h., playing out Itwol thin wires attached to the submarine's computer [from twin spindles in its tail] and changing direction as the computer dictates. "In the final stages of the attack,

when the submarine has determined that the torpedo is heading in the right direction, an automatic hom-ing system takes over and guides the

torpedo to its target. "'The superquiet Tigerfish is one

of the most deadly underwater weap ons yet produced,' said the Jane's expert. 'It is virtually impossible for the target to know that the torpedo is approaching.""

Each Tigerfish torpedo costs \$900,000. Just to sink the aging Argentine cruiser General Belgrano cost nearly \$2 million for the two torpedoes fired at it.

With respect to our jobs, few other things reveal as much the depth of our conversion and our ability to handle responsibility. Whether you're the boss, or subordinate, you're still under the author-ity of others (officials over you, tax collectors, bill collectors, banks holding credit and loans), who constantly test how well you can be governed

As Pastor General Herbert W. Armstrong says, God will not save anyone He cannot govern. But what happens in the case of the unjust employer? What if you have given your best, and it wasn't regarded? Instead of getting depressed,

apply an important key. Meditate on the revealed purpose of this life — to build character and train to be a part of God's Kingdom. Turn to Isaiah 49:4: "Then I said, I have laboured in vain, I have spent my strength for nought, and in vain: yet surely my judgment is with the Lord, and my work with my God."

This is a good way to make employment lemons into lemonade. Regard God as your real employer. God owns everything (Haggai 2:8), so be grateful to work with His property, handling your affairs by using the example of Jesus Christ as a model (I Peter 2:21).

Parkinson's Law

A quarter century ago, C. North-cote Parkinson coined an axiom that has become known as Parkinson's Law. It reads: "Work expands so as to fill the time available for its com-pletion." He uses this saying in a negative sense - that a small job can waste an incredible amount of time through lack of motivation.

However, we can turn this into a positive principle. Say you're stuck sweeping the floor. You could do the whole job in 10 minutes, and since your supervisor's not there, spend the next two hours puttering around doing nothing.

Instead, concentrate on doing the best job of sweeping your firm has ever seen. Go above and beyond what's expected, setting higher standards for yourself than you nor-

mally would. If you've got an office job, do a little extra research; practice going over your just-finished report: check the figures again - strive for

encer the neuros again — strive for perfect accuracy. And above all, do it to reflect God's way of excellence — don't worry about hang seen so people will know you're working extra hard (Matthew 6:1-4).

final exam wisely. Remember that in both this life, and the next, "the hand of the diligent shall bear rule" (Proverbs 12:24).

The Time article then reviews the first-in-combat use of other deadly weapons - the British Sea Skua and Sea Wolf missiles and the now infa-mous French-made Exocet missile

(which cost \$200,000 apiece). The French developers of the Super Etendard Fighter and the Exocet, which combined to cripple

the HMS Sheffield, were said to

have exulted openly about the "vic-tory for French electronics."

War directed from space

Another ominous trend is the expanded use of earth-orbiting satel-lites for military intelligence. It has been learned that it was a Russian satellite that beamed to the Argentines the exposed position of the ill-fated HMS Sheffield. Based upon this initial sighting,

the Argentines further refined the Sheffield's position with their own aerial reconnaissance aircraft, then sent the Etendard jet on its way. The whole process took about four hours. The big question that the British

have now is: Where are those two German-made subs the Argentines have? The subs have modern torpedoes that could deal a deadly blow to the converted liners carrying British troops — the Canberra and the Queen Elizabeth II. The Russians are certain to be relaying satellite information to Argentina concerning the whereabouts of these shins.

It takes no stretch of the imagina-tion to speculate that future wars will move into space, with competing

I want to express my deep apprecia-tion for Mr. Rod Matthew's column "In-ternational Desk." This column "tunes us in" as it were, to the lives of our breth-ren in lands foreign to us in America (but certainly not foreign to God) and shows their problems and troubles encountered in their efforts to keep God's Sabbaths

in their efforts to keep God's Sabbaths and Holy Days. I want to thank you also for Mr. [Gene] Hogberg's column "World-watch." It pinpoints and explains the troubles in the world and gives us the opportunity to look at it through the eye of our brethren in the areas we read of in the "International Desk." It is an unbeatable combination of

writings. It should make our prayers more personal concerning our brethren and leaders all over the world and greatly enrich our prayer life.

Use the time remaining in this

Midterm Why don't we take a little mid term exam on our jobs right here? (1) Looking at the time and effort

I have invested in my job, am I a worker "worth his keep" (Matthew 10:10, New International Version)?

Just one more thing

By Dexter H. Faulkner

Job performance reveals

deepness of conversion

(2) So far as my on-duty record is concerned, do I always do "the work faithfully" (II Chronicles 34:12)? (3) Whenever I am given a task,

whether I like it or not, do I "do all things without murmurings and disputings "(Philippians 2:14)? (4) Further, when talking to fel-

low employees or my superiors, do I let "corrupt communication pro-ceed" out of my mouth (Ephesians 4:29)?

(5) On the job, do I always try to (3) On the joo, do r always try to "make sure that nobody pays back wrong for wrong" (I Thessalonians 5:15, NIV), by always being a "peacemaker" as opposed to being a mere peace "lover" (Matthew 5:01) 5.913

(6) Rather than waiting for an ax to fall, do I periodically ask my supe-riors how I could improve, and seek correction for any faults I might be blinded to (Jeremiah 10:24, Psalm 19:12-13)?

(7) Do I always, no matter what task I'm doing, "do it heartily, as to the Lord, and not unto men" (Colossians 3:23)?

Well, how'd you do? If you're like me, and, I suspect, most other people, you probably have at least a *little* room for improvement.

We all need to realize how important our job performance, responsi-bility and attitude are to our spiritual goals.

As we train to be priests and kings under God and Jesus Christ (Reve-lation 5:10), our Instructors helping prepare us during our final exams, we need to realize that the purpose of the 100,000-hour final is to see how we apply God's law and what we've learned in His Church.

Why is it important to expend the effort in little things? "Whoever can be trusted with very little can also be trusted with much, and whoever is dishonest with very little will also be dishonest with much' (Luke 16:10, NIV).

Monday, May 24, 1982

powers attempting to knock out, as well as to defend, spy-in-the-sky satellites

What kind of navy?

Defense of surface naval vessels against such powerful offensive weapons is becoming increasingly difficult. This difficulty is the prime reason for the debate in the U.S. Congress over which way the U.S. Navy develops in the future.

According to advocates of the "big punch" school, the U.S. Navy needs additional 90,000-ton \$3.4 billion aircraft carriers. Opposing them are adherents of the "dispersal school" who claim that the Navy should move in the direction of rely ing upon smaller carriers plus a larger number of smaller, more aneuverable ships. The sinking of the Sheffield cer-

tainly shows that small ships are vul-nerable. Those advocating smaller surface vessels nevertheless point out that the loss of just one Nimitzclass carrier, together with its load of up to 95 aircraft — some of them costing about \$25 million apiece to say nothing of a crew of 6,000 men, would do incalculable damage to the country.

In a special report "Are Big Warships Doomed?" Newsweek, May 17, says: "A carrier task force [a supercar-

rier plus all of its attending ships, large and small] is a strategic contradiction: an offensive armada most of whose parts exist to defend itself Submarine commanders who have tracked U.S. carriers during naval exercises are almost comtemptuous

of their prey . . . "The big carriers are so open to attack that when a show of U.S. power was called for during the Iranian hostage crisis, the Navy refrained from sending a super carrier into the Persian Gulf.

Supercarriers super vulnerable

Letters to the editor

Tuned in

with a fine, comfortable home complete

Steuben crystal plant combines high technology, craftsmanship

CORNING, N.Y. — Pastor General Herbert W. Armstrong often presents gifts of Steuben crys-tal to world leaders while carrying the Gospel worldwide.

Mr. Armstrong is not alone in choosing Steuben (pronounced "stoo-ben") crystal as gifts for prominent leaders. Every United States president since Harry Truman (1945-53) has chosen Steuben crystal as gifts of state. Steuben glass products are featured in museum collections worldwide.

Portions of this article were excerpted or condensed by permission from the Corning Glass Works' publication, About Steuben Glass.

Steuben crystal, or glass, as it is called, stands in collections in the Palais du Louvre in Paris, France; the Smithsonian Institution in Washington, D.C.; Hermitage Museum, Leningrad, Soviet Union; the Vatican Museum, Vatican City; and many more.

The Steuben Glass Works, a division of Corning Glass Works, com-bines modern technology with glassmaking techniques hundreds of years old to manufacture the high quality pieces.

Making fine crystal

The process of making glass has remained basically the same for 3,500 years. Sand is heated with an alkali to help it melt, and a stabilizer (such as lime) for moisture resistance. After A.D. 1676, lead was added to glass to increase brilliance, weight and reflective qualities. Leaded glass is called lead crystal, and is considered the highest quality.

High quality lead crystal contains no trace elements and is as colorless as pure water. Some glass can have minute flaws, as air bubbles (called seeds), specks of matter (stones) or faint lines (called cords). These flaws reveal themselves when the crystal is held against bright light.

For a piece of crystal to bear the Steuben name, it must be colorless and free from stones, seeds and cords. No factory defects are sold.

Instead, any piece that fails to meet the high standards of the company is destroyed and the broken naterial melted into another piece

All Steuben glass is handmade, with individual crews or shops of experienced craftsmen beginning and finishing individual pieces

There is no assembly line. After a piece is designed, crafts-nen employ the finest materials avail-

able to mold and shape their products

High quality sand is imported from Africa and mixed with lead, cullet (broken glass of the same formula), alkali and a stabilizer. The materials then are melted together in a platinum-lined furnace

and stirred with a platinum stirrer. Platinum withstands the corrosive effects of molten glass and imparts no impurities to the product. The furnaces themselves are tak-

en apart and rebuilt every two or three years to maintain high quality processing. Molten glass samples are examined under a microscope every 24 hours to monitor purity.

Three times a week X-ray spec-troscopy and other chemical tests also help insure glass purity. Areas outside the factory are kept damp to reduce airborne dust and other possible contaminants.

When the glass is melted and ready, a gatherer takes a precise por-tion from the melting furnace to the individual crew's glory hole, or reheating furnace. This portion of glass is called a gather.

The gather's portion is measured in pouring time. A crystal vase may take 48 seconds of glass, while a larger piece may take 400 seconds of pouring time. A piece of crystal may be blown

or molded, depending on the design. Glassblowers inflate the piece with short puffs of their breath, while other craftsmen may use metal or wooden instruments to shape and mold the piece.

During this step the crystal is reheated several times. The methods employed here often date back to the late 17th century

After the piece is formed, it is allowed to cool from its amber color to 350 to 400 degrees Celsius (662 to 750 degrees Fahrenheit), still hot

enough to char paper. It is then removed from its shap-ing tool and placed on a conveyor belt. The belt moves through consecutively cooler areas for eight hours, until the glass is cool enough to handle.

This slow-cooling process prevents internal stress. Some larger pieces may take up to three days to cool.

Final beauty

After cooling, polishing and etch-ing begins. If the gaffer or master craftsman becomes aware of any flaws or inconsistencies at this or

"Last year De Echte Waarheid had a had a circulation of only 16,000," Mr. Wilms said. "So we've had almost a 300 percent increase in one year!'

manager.

The two-color Good News (Goede Nieuws) in the Dutch lan-guage, printed in Pasadena, began circulation in January, added the

tch-speaking areas, and his wife Miek, pause in the Editorial Services nference room May 11. [Photo by Scott Smith]

Wilms said.

translated " said Mr Wilms "We printed 5,000 copies of the booklet about hippies in 1968. Of course, that's when the Dutch Work was still part of the German Work under Mr. [Frank] Schnee's direction in Germany.

Mr. Wilms worked for two years translating De Echte Waarheid and booklets

Monthly Sabbath services began in Utrecht under the direction of Mr. Schnee in 1967. Seven families and three bachelors attended the first services, conducted in English.

"Three years later, Dr. [Roy] McCarthy was named head of the Work in Dutch-speaking areas, and he began weekly services," Mr. Wilms recalled. "For five years he worked in Bricket Wood [England], and I worked in Holland

Then, in 1975, the headquarters of the Work in Dutch-speaking areas settled into a modern building in Utrecht.

"It's still small," said the business manager, "but we have our own place now." Abraham "Bram" de Bree from Canada was named direc-tor in June, 1978.

Mr. Wilms estimates about 260 brethren attend weekly services in the three Dutch churches of Bilthoven, Zwolle and Tilburg. "A church in Antwerp, Belgium, should begin in July," he remarked.

About 300 Dutch-speaking brethren attend the Feast and Holy Days, he added. "We only have room for about 80 visitors to the Feast this year.

Other employees of the Utrecht Office are Margit Zyderveld and lepke Klarenberg. "Mr. de Bree, Harold van Lerberghe, five Spokesman Club members and myself do the speaking at services," Mr.

"Until 1977 services were conducted in English," he continued. "Now we speak Dutch with translations into English available at the Bilthoven church."

Mr. Wilms, a deacon, and Mrs. Wilms, a deaconess, both baptized in 1965, see rapid expansion ahead for God's Work in Dutch-speaking areas.

The Wilms, who attend the Bil-thoven church, have five children, Henk, 26, Elleke, 25, Petra, 23, Evelyn, 22, and Wim, 19.

Falklands (Continued from page 2) Soviet blue-ocean navy compose now of 1,179 ships, nearly twice the

number of the 600-ship Navy the Pentagon wants. Moscow's fleet includes 375 submarines. In a battle near land the carrier task forces would also be assaulted by waves of Soviet "Backfire" air-

planes, each carrying two cruise mis-siles with ranges of 500 miles. In a companion piece to the News-

week special report, Admiral Stans-field Turner, U.S. Navy, retired, wrote the following, in arguing against more supercarriers:

"The Sheffield case points out how difficult it is to harden a surface ship so that it can weather missile attacks. If a destroyer has even one sensitive point, an aircraft carrier has many of them. Many of the vulnerable points on a carrier — avia-tion fuel lines, bombs and planes loaded with fuel on the flight deck cannot possibly be hidden behind

defensive shielding . . . "The whole history of warfare is

littered with cases of military planners preparing for yesterday's bat-tles. It would be a shame if the human tragedy of the Sheffield falsely led us to perpetuate a dying form of naval warfare - the big car-

rier." Nevertheless, indications are that the United States will move in the direction of a 15-carrier task-force fleet - up from 11 today. Moreover, the Navy is hauling four battleships out of retirement, with the intention of refurbishing them as cruise-missile platforms. That's like "digging up General Custer," derides a critic of the plan.

Never before in history have military strategists been so bewildered. Weapons systems and strategies are being developed beyond the scale of effectively countering them defensively

How true the admonition in Psalm 33:16 (Revised Standard Version): "A king [or a nation] is not saved by his great army . . . The war horse [the battleship, the supercar-rier, missiles or satellites] is a vain hope for victory, and by its great might it cannot save."

other points, the piece is destroyed and remelted. Cutting and engraving designs on the polished piece require long, careful hours of work. Often, 50 or more hours of engraving are required for a single piece. Engrav-

ers and polishers may be apprentices for six years or more before they become qualified craftsmen. Under this form of craftsmanship, production is slow and limited. Therefore, Steuben crystal custom-

ers often must wait. As evidenced by the demand, the wait is worth it, causing one to reflect on what Antonio Neri, the author of the first book of glassmaking wrote in the 17th century "Glass is more gentle, graceful and noble than any metal, and its use is more delightful, polite and sightly than any other material . . . known to the world "

The Steuben factory is about 125 miles northwest of the Mount Pocono, Pa., Festival site and is open to visitors year round.

PASADENA — In spite of gov-ernmental regulations in the Neth-

erlands that restrict radio and televi-

sion broadcasts, the Work in Dutch-

speaking areas continues to bear

fruit, reports Johan Wilms, busi-ness manager for the Work there.

Mr. Wilms also oversees editorial

and publishing functions in the Utrecht, Netherlands, Office.

Mr. Wilms traveled to Pasadena May 2 to 13 with his wife Miek to

"discuss editorial, publishing and mail-processing operations here. The Dutch Office works closely

with Pasadena," said the business

Deaconess contributes to Church publications Writer utilizes early experiences

By Jeff Zhorne LINCOLN, Neb. — How would you pass time if you had nothing to do but look after cows grazing on Iowa roadsides? After herding her father's cattle

through a gate to eat the lush road-side grass, 10-year-old Shirley King, living in Cass County, Iowa, got out her pencil and tablet and created adventure stories.

Those early days of writing proved valuable for Shirley King Johnson, author of *Worldwide News* features about a beagle named Major and his human companions Jim and Susie.

Mrs. Johnson, a member of the Lincoln church, recalls: "My teach er - her name was Laura Mehlman - would ask me to read my adven-ture stories to the class. Really, classes, since grades one to eight were in a one-room schoolhouse.

"Anyway, I made it to a real high school in Cumberland [Iowa], and I worked on the school paper," she continued.

She married Tom Johnson of Auburn, Neb., whose work with a grocery chain brought the couple to Lincoln in 1958, After the Johnsons' four children grew older, Mrs. Johnson found more time to write.

"I sold juvenile short stories to various publishing houses," she mentioned, "and they were pub-

lished as a Sunday school take-home

Paper." Her first full-length novel, A Dog Named Chip, was published by Zondervan in 1964. "Fortunately,

Zondervan in 1964. "Fortunately, it's out of print now," she said. Mrs. Johnson also wrote a regular column called "Inside Shirley's Temple" for the Lincoln Sun. "I even worked as an editorial assistant one summer," she noted, "but it wasn't fun; it was too much work!"

Encounter with truth

"Well, in 1961, my twin sister [Sharlot Whitcomb] showed me The Plain Truth," said the author. "I subscribed and later sent for the Correspondence Course and other literature." Mrs. Johnson was bap-

tized in 1967. In 1974, Dave Havir, now pastor of the Iowa City and Davenport, Iowa, churches, was sent to Omaha, Neb., as a ministerial trainee. He had worked for The Worldwide News at Big Sandy Ambassador College and, upon talking with Mrs. Johnson, suggested she submit a story

Several stories for young children were published, but her forte proved to be stories about Major. The first one printed was "Major Wins a Medal" on Feb. 3, 1975.

"Major is so much fun to write," said the author, "but I never

dreamed of Major becoming a series. I've always been pleased with the artwork that goes with Major.

Major's beginning

Major was patterned after a real dog, says Mrs. Johnson. "I had had a collie named Chip — that's what I wrote my novel about — but I wanted to write about a different dog. I owned a Pekingese at the time, but can you see the adventures of a Pellingese?

of a Pe⁻ingese? "My sister had a beagle named Major. It's not living anymore, but Major was just the dog 1'd been looking for. We now have a beagle named Ranger. He's been with us for two years, but don't look for any 'Adventures of Ranger.' "

Major's friends, Jim and Susie Wilson, have grown over the years, said Mrs. Johnson. "Even my readers have noticed. I'd say Jim is about 12 now and Susie, 7," she noted.

"Then they had a contest to draw Major. That was great fun. The WN asked my permission and I was tick-led pink. That was one of the greatest thrills of my life!" she exclaimed (WN, June 21, 1976).

'Good News' features

Mrs. Johnson also began writing "Stories from the New Testament," which were first published in the January, 1981, Good News. AUTHOR AND MODEL - Shirley King Johnson draws on childhood

experiences, a Feast trip to Israel and professional experience to write for the Work. Her dog, Ranger, lives with the Johnsons in Lincoln, Neb.

"Those stories have to be the hardest thing I've ever tackled," she

said, "but I'm very pleased to have the opportunity to write for The

Mrs. Johnson and her daughter

Elaine attended the Feast in Jerusa-

lem last year at the suggestion of pastor Art Docken. "Mr. Docken

thought that the clothing, people and culture in Israel would enhance

and culture in Israel would enhance my writing for the GN." she explained. "It certainly did." After the Feast, Mrs. Johnson and Elaine traveled into northern Israel. "The trip across the Sea of Galilee was unbelievable," she noted. "The Bible comes alive."

Good News "

A lover of music — she sings and plays piano — Mrs. Johnson also schedules time to nurture her roses and vegetable garden.

Mrs. Johnson was ordained a dea coness in September, 1980.

Monday, May 24, 1982

Her four children are Elaine, 31, a member of the Kansas City, Mo., East church; Evan, 25; and 18-year-old twins, Barry and Bryan. Bryan has applied for admission to Ambas-sador College.

"You might put in your article that writing hasn't come naturally to me," she said. "I've had to work at it, and I've done a lot of studying in the library to polish my writing.

Major's Mailbox Adventure

STORY FOR YOUNG READERS By Shirley King Johnson

(On their way to deliver important papers to the city attorney, Mr. Wilson, Jim and Major are followed by a strange car.)

Mr. Wilson's foot eased up on the accelerator as they came to a curve in the winding park road, and that was when the car behind them made its move. Jim heard a screech of tires on cement as his father held the steering wheel.

The big car passed them and swerved into their path. Instinctively, Mr. Wilson swung off the road. A tree loomed up in the headlights and Mr Wilson hit the brake. Jim's seat belt kept him from slamming into the windshield, but he felt Major thud against the seat — WHAM!

The motor stalled as they came to a complete stop against a tree. Mr. Wilson's hand moved to the ignition as he looked around to see if he could back out of the trap. "Jim, is your door locked?" he asked.

"No, sir, I'll lock it." As he reached out his hand to push down the car door lock, it suddenly opened. A flashlight blinded his eyes.

"Hand over that envelope, folks," said a stern voice. "And fast!" Jim realized that Major was lying

stunned on the floor of the backseat He turned to his father. "What'll we do?

Mr. Wilson thrust the manila enve lope into Jim's hands. "Go ahead and give it to him."

As Jim accepted the envelope it was snatched from his hand. "Thanks," said the man. "Now, get out of that car

Mr. Wilson's hand restrained Jim. "Nothing doing," he responded. "You have the envelope now so I'll be back-

ing my car out of here." "I said get out!"

"We're staying in here," insisted

Mr. Wilson firmly. "You have what you want, so run along."

"Get him, Major!" Jim heard Major stirring in the backseat. "Get him, Major!"

Like a streak, Major vaulted into the front seat, leaped across Jim's lap and lunged at the man behind the flashlight.

There was a startled exclamation and the flashlight thudded to the ground outside. Jim heard Major's growl and the man's angry words. "Come back, Major!" ordered Mr. Wilson. "Come on, boy!" He turned

the key in the ignition and the car roared into life. Major dived into the front seat into Jim's lap, wet with rain and panting with excitement.

Jim slammed the car door and locked it as Mr. Wilson backed onto the road. The red rear lights of the car that had stopped them suddenly moved off and disappeared into the night. "Quick, Father, after him!" Jim

urged. "No, we'll let him go. I'm grateful

to God we haven't been hurt. That man didn't appear to be hurt either." "Can Major sit in front with us on

the way home?'

"He sure can!"

Jim pulled Major down on his lap as they started home.

When they were in the house Mrs. Wilson listened in horror as they related their experience. She hugged Major too.

Jim went on to bed, but it was a long while before he could sleep. He could hardly wait to tell his friends at school all about the evening's wild adventure

Mrs. Wilson let him sleep later than usual the next morning, and Jim was the last one to hurry into his classroom and sit down at his desk.

Miss Lacey took attendance and then plunged right into the business of reports. She announced that she would hear the reports in reverse alphabetical order. Mary Zigelow was called upon first and that meant Jim Wilson would be next.

As Mary launched into her report Jim quietly opened his manila envelope and took out the pages. As he laid the contents of the envelope on his desk, he frowned. None of the pages was filled with his carefully penned handwriting. These were photocopied pages lined with rows of figures.

Missing report

Suddenly Jim froze. These papers were the ones that Mr. Parcher wanted so desperately, the pages that someone had forced their car off the road to get last night! Or so they had thought. But

a mistake had been made. It must have happened when his father picked up the envelope off the table as they were going out to get in the car. He had taken Jim's school envelope instead.

Jim clasped both hands to his fore-head. His school report was gone. He

was going to have to confess to Miss Lacey that he could not give the required report.

Slowly he jammed the papers back into the manila envelope and closed the flap. He was in trouble. But it wasn't all that bad. Wouldn't his father be amazed and pleased to find out that they still had those papers? And wouldn't he have liked to have seen the look on the face of that man last night when he opened the envelope and found a school report instead of incriminating financial pages!

Mary droned on and at last concluded her reading. The class applauded politely and she took her seat.

Miss Lacey arose again and smiled to the class. "Next, James has a report on city government. Is that correct, James?

Jim pushed himself up from his desk. "Yes, Miss Lacey. I wrote about city government. But I won't be able to give it today." (To be continued)

AMBASSADOR ACTIVITIES

TWO STUDENTS RECEIVE SCHOLARSHIPS

6

Recipients of the Watson W. Wise Incentive Award for the 1981-82 academic year are Pasadena junior Scott Gjesvold and Big Sandy freshman Cara Edwards, according to the college administration.

The award to Miss Edwards was made during the final student forum of the college year at Big Sandy, May 11. Mr. Gjesvold received his award May 19 during commencement exercises (formal graduation ceremony) in the lower gardens of Pasadena Ambassador College.

The award is the gift of Tyler, Tex., businessman Watson W. Wise, who established a fund to financially benefit students of outstanding merit.

According to the terms stipu lated by Mr. Wise, selection for the award is to be made by col-

[Photo by Dominick Furlano] lege administrators who should select the student "who, in their judgment, is most worthy in exemplifying the qualities of industry, scholarship and other activities within the area of Christian citizenship." With the reopening of the Big

Sandy campus, it was decided that the award should be divided between the two cam-

puses of the college. This year's award winners each received a check for

each received a check for \$1,000.

JUNIORS ARE HOST TO GRAD BALL

The Pasadena junior class played host to a formal gradua tion ball May 18 in the student center, honoring the senior class.

The dance floor was decorated to emphasize the theme, "Streams of Living Waters." The most prominent decoration was an 18½-foot waterfall with recirculating water cascading ours insitue rooks.

over imitation rocks. The waterfall was constructed under the direction of James Ramsay with the assistance of the college's plumbing and carpentry departments and the paint shop. Plants and foliage arranged by Jerry Ross and his crew added to the decor.

Dance music was provided by the Ambassador College Stage Band directed by Ross Jutsum, and refreshments were provided under the supervision of

Victoria Murney and Ann Hays. Students, faculty and guests adjourned to the Ambassador Auditorium where an entertainment program was presented. This featured songs, skits and dances by members of the junior class.

Master of ceremonies was Junior Class President Rees Ellis, who wove the acts together to provide a review of the past year's activities at Ambassador

Phil Greenwood directed the program, which concluded with a song entitled 'Ambassador," which he adapted and arranged from the title song of the musical, *Camelot*. This was performed by a chorale comprising members of the junior class.

After the entertainment Greg Albrecht, dean of students, presented outgoing Student Body President Randy Duke with a Seiko watch and a check from the students.

SONGFEST — Big Sandy sophomores Mark Mounts, Joel Rissinger, Jack Willard and Pat Moore entertain students and faculty attending the Pioneer Dance, "Southern Soiree," in the field house May 9. Several other skits about campus activities and functions were also presented. After the final skit Phil Bauer sang "Yellow Rose of Texas." Students and faculty enjoyed a buffet dinner prepared by employees of the campus Food Service Department before the dance. [Photo by Dominick Furlano]

SENIOR TRIP — Pasadena senior students share a light moment at the San Diego, Calif., Zoo during the April 15 to 18 senior trip. Faculty members Sidney and Mary Hegvold chaperoned the group. Activities included a trip to Tijuana, Mexico, a major league baseball game, a Friday evening barbecue, swimming, jogging and a Friday night Bible study. [Photo by Svlvia Owen]

Ambassador College founder and chancellor, Herbert W. Armstrong, was present to hear Deputy Chancellor Raymond McNair extend his gratitude to Mr. Armstrong for his dedication to the college.

Dancing resumed in the student center and continued until after midnight.

Reviewing the evening, Mr. Albrecht said: "The graduation ball is always a tremendous way to end the college year, and this was certainly no exception. Everyone was inspired by the efforts of the junior class."

FRESHMEN TAKE FIRST IN PASADENA FIELD DAY

The freshmen class placed first in the track-and-field day on the Pasadena campus May 16, according to James Petty, director of athletics. Nine records were set. The final scores were freshmen, 128; juniors; 48; seniors, 35; and sophomores, 25.

Top male athlete was freshman Ken Bellamy. The top female athlete was freshman Gayle Travis, who set records in the 800, 1,500 and 3,000 meters.

Her record-setting times were 800 meters (2:32.1), 1,500 meters (5:29.4) and the 3,000 me-

ters (11:45.7). She also took third place in the long jump. Bellamy placed first in the triple jump and 400 meters. He was also on the record-setting

1,600-meter relay team, placed second in the long jump and third in the 200. Other records set: 400-meter relay — freshmen (Greg Achtemichuk Teau Compa Bay

temichuck, Tony Campo, Raynard Eddings, Mike Huff) 45.2; 1,600-meter relay — freshmen (Ken Bellamy, Gary Campbell, Warren Pyke, Robert Walker) 3:41.8; meri s 100-yard dash freshman Mike Huff, 10.1; women's high jump — Ardys Parman, 4 feel 11.5 inches; women's 400-meter relay freshmen (Page Coon, Eileen Dennis, Carolyn Matthews, Cheryl Cooper) 55.2; 200-meter dash — freshman Cheryl Cooper, 27.5.

All records except the 100yard dash were compared with times set in 1981 when the track was recalibrated in metric distances. The 100-yard dash record was last set in 1969.

PIONEER BALL TAKES PLACE IN BIG SANDY

The Pioneer Ball, a "Southern Soiree," took place on the Big Sandy campus May 9. After a buffet dinner, the

dancing got underway at 8 p.m., to the sounds of Oasis, a Longview, Tex., band under the direction of Big Sandy graduate Murdock Gibbs. Mr. Gibbs' wife Vera is also a member of the band.

Students, faculty and guests danced in the dining hall, which was decorated with a Southern plantation home backdrop. A Museum of Memories re-

viewed the 1981-82 school year. Photographs of Chancellor Herbert W. Armstrong's visits to the campus and the travels of Deputy Chancellor Leon Walker, regional director of the Work in Spanish-speaking areas, were featured.

An entertainment segment organized by Tom Delamater, assisted by sophomore Agnes Youngblood, featured sophomore George Hague and freshman Donna Benningfield as Joe and Jane AC.

The segment included the barbershop quartet of sophomores Joel Rissinger, Pat Moore, Jack Willard and Mark Mounts and ended with a slide presentation accompanied by freshman Phil Bauer singing "The Yellow Rose of Texas."

FRESHMAN VICTORIOUS IN BIG SANDY FIELD DAY

The freshman class defeated the sophomores 142-127 to win the first field day since the Big Sandy campus reopened, according to Larry Haworth of the Physical Education Department

Top male athlete was sophomore Rick Walker, who won the 440, 880 and two-mile run.

Freshman Karen Lutes emerged as top female athlete, setting Big Sandy records in the long jump (16 feet 7 ½ inches) and the high jump (5 feet). Freshman Jeff Garden set a record in the long jump with a lea_F

of 22 feet 6½ inches. These records are based on those held at Big Sandy until 1974 when athletic events became intercollegiate, according to Mr. Haworth.

STUDENT LEADERS NAMED

Students selected for leadership positions for the 1982-83 academic year in Big Sandy were announced by Leon Walker, deputy chancellor, during a forum April 27.

Ralph Lucia, 25, was named student body president; Teresa Meisner, 19, is next year's overall Women's Club president; and Mark Larsen, 21, will serve as sophomore class president. Ambassador Club president.

are Eric Evans, Mike LaBelle, Steve Purkapile, David Witt and Paul Jarboe.

Women's Club presidents are Teresa Meisner, Cynthia Gray, Lisa Steenport, Donna Benningfield and Wendy Martin.

Resident assistants are Vaughn Duke, Randy Jackson, Danny Parks, Ray Rex, Wayne Benningfield, Linda Perrault, Jean Dusek, Annie Price, Nancy Wold and Carol Burbeck.

Children's Corner

Truth Clears the Air

By Vivian Pettijohn "Chris!' Mother called. "Shut the door. These feathers are blowing all over the room!'

Chris quickly closed the door behind him and ran into the kitchen. Some of the feathers that Mother was stuffing into two pillows were now twirling around and around in the air.

"I didn't know feathers were inside any of our pillows," Chris said as he picked up feathers from the floor. "Yes," Mother said, "these pillows

have them, but they've lost a few through a hole in the seam and need more. Now," Mother continued, while you help pick them up, tell me what you've been doing next door at the twins' house. And where is Debbie now

"Well," Chris answered, "I taught Tommy, Tammy and Debbie a new game. After we started playing it, some other neighborhood kids came over. Debbie was still there playing it with them when I came home

"What game?" Mother asked. "Tell me about it."

"Well," said Chris, "it's called Gossip. We learned it at school today. I started a story by whispering it to Tommy. He whispered it to Tammy; Tammy whispered it to Debbie; and she told someone else. When Debbie comes home she is to tell me how the story turned out. It's lots of fun, because the story changes all the time and gets all mixed up!"

What was the story you told?" Mother asked. "I said," Chris answered, "that my

teacher, Miss Palmer, went with Mr Norris, the fourth-grade teacher, on a picnic. They ate fried chicken. Then they went for a walk in the park and watched the birds."

The back door opened, slammed

and Debbie burst into the kitchen, frowning.

"Chris!" Debbie exclaimed, "I think it's awful that Miss Palmer called Mr. Norris 'chicken' and said that he stepped on birds in the park!" Chris laughed. "That's not what I

said at all!" "Well," Debbie continued, "that's what all the kids are telling everybody on our block. One boy was so mad at what Miss Palmer said about his teacher, Mr. Norris, that he is going to call the principal. They all think the story is true!"

"Oh no!" exclaimed Mother. "Let's ask your father what we should do. I hear his car in the driveway." After Dad heard from Mother what

had happened, he turned to Chris. "Son," he said, "I'm afraid that what started out as just a game became like real gossip when the children started believing the story. That is bad Satan wants us to gossip, but God hates it! Do you know which commandment says we are not to gossip "Gossip?" asked Chris, surprised. 'No! I know all Ten Commandments, but not one says anything about gossip does it?"

"Debbie," Dad said, "remember the commandment you asked me

about last night? Say it for me." "Last night? Oh, yes, I remember. "Thou shalt not bear false witness against thy neighbor." Debbie frowned. "You said that means we must never gossip - you know, say anything bad about anybody. And you said we must never lie about anyone. But, Daddy, we were just playing a game. We didn't *mean* to gossip!"

"Whether you meant to gossip or not isn't the question now," Dad explained "because it became gossip when the children spreal the story as true. We have to do something about it. Turning to Mother, Dad asked, "Do

you still have some of those feathers

"Why yes, dear," Mother an-swered. "Why do you ask?" "Chris," Dad said, "bring me nine

of those feathers — one for each word of the Ninth Commandment." Chris returned with the feathers,

looking puzzled. Dad said: "Now, you and Debbie

take these nine feathers out into the backyard and place them on the ground. Then come back in."

Soon the children were back. "How are the feathers going to help anyone, Daddy?" asked Chris.

"They're going to help us all learn an important lesson," Dad answered. Now, you children go back outside. Gather up the nine feathers and bring them back to me."

After several minutes the children returned, each holding only two feath-ers. Debbie said in a small voice: "This is all we could find, Daddy. The other five blew away!" "Exactly," Dad said, "and that is

the way gossip is — or telling lies about someone. No matter how hard we try to take back words we shouldn't have said, we just can't catch them all before some harm is done. Chris and Debbie, what can you do to help make things right?" Debbie said, "Maybe we could see

all the kids who played with us and tell them it wasn't a true story - it was just a game?"

Chris said: "I could explain to Miss Palmer and apologize for letting the game go too far. If I had stayed there, I could have made sure they knew it wasn't a true story!'

Dad nodded in agreement. "I hope

all of us will be more careful now with our words. Let's make sure we don't ever bear false witness! If we try hard to tell only the truth, then we won't have to worry if some of our words do fly away — like those feathers in the wind."

MIXED-UP NEIGHBORS

The words of the Ninth Commandment are mixed up here with another scripture. Use a pencil or crayon to mark through the Ninth Command-ment words. ("Thou shalt not bear false witness against thy neighbour.") Then find what the neighboring words say and print that scripture on the blanks below

A THOU FALSE SHALT WITNESS NOT SHALL BEAR NOT BE FALSE UNPUNISHED WITNESS AND HE AGAINST THAT SPEAKETH THY LIES SHALL NEIGHBOUR PERISH

NEWS OF PDA PEOPLE. PLACES & EVENTS IN THE WORLDWIDE CHURCH OF GOD

PASADENA — The Ambassa-dor International Cultural Foundation (AICF) and the Corporation for Public Broadcasting made possible the North American airing of pianist Vladimir Horowitz's May 22 performance at London, England's, Royal Festival Hall, according to the AICF office here.

Pastor General Herbert W. Armstrong, AICF founder and chair-man, attended the concert after flying there in the Work's G-II jet May

Mr. Horowitz's two-hour concert was televised live in Europe, and transmitted by satellite in stereo to the public television station WNET-TV in New York, N.Y., for later airing May 22 and 23 throughout the United States. Many stations, including KCET-

TV Los Angeles, Calif., arranged for area FM stereo stations to simul-cast the concert during various airing times over the United States. Concert commentary and an

intermission documentary were provided by the British Broadcast-ing Corp. (BBC).

The May 22 concert was the first of two performances. The second performance is scheduled for May

The May 22 concert was a benefit for the Royal Opera House in Lon-don, of which Prince Charles is a patron. Mr. Horowitz donated his

The May 22 performance marked the pianist's first appear-ance in London in 31 years, the AICF office said. \$ A

PASADENA -Plain Truth news editor Gene H. Hogberg sum-marized his May article "Behind the Call for a Nuclear Freeze in Europe" on KTTV-TV May 18 in Los Angeles, Calif.

By Rex Morgan AUCKLAND, N.Z. — The homes of three Church families

were spared when a tornado ripped a 2¹/₂-mile (four kilometers) swath

through suburban streets here at 3 a.m., April 30. Five other homes were destroyed and about 80 others

Mr. Hogberg received a call from Alicia Sandoval of the television station asking him to participate in the afternoon "Open Line" currentafternoon "affairs show.

Ms. Sandoval opened the show by asking Mr. Hogberg to summarize the situation in Europe, on which the news editor spoke for about four minutes.

The camera displayed a full view of the May Plain Truth cover with Soviet President Leonid I. Brezh-

After Mr. Hogberg's telephone contribution, Ms. Sandoval thanked him for "a very interesting article" that provided a "widened dimension to the issue."

Mr. Hogberg, who said the dis-cussion was a first for him, added that he thought the interview "re-flects a growing awareness of The Plain Truth, even among members of the news media." Ms. Sandoval told the news editor that she subscribes to the magazine.

Pastor General Herbert W. Arm-

PASADENA - For the first time in four years, all ministers serv-ing English-speaking areas in the Caribbean assembled in Barbados for a ministerial conference May 2.

Conducted by regional director Stan Bass, at Sam Lord's Castle, a resort hotel, the meetings included lectures and administrative discus-sions about Plain Truth distribu-

Tornado misses homes

of New Zealand brethren

tion, media coverage, office proce-

dures and reporting. Those attending, with their wives, were Roland Sampson, Ber-muda; Kingsley Mather, Bahamas:

Charles Fleming, Jamaica; Arnold Hampton, Barbados; Victor Simp-son, Trinidad; Paul Krautmann, Guyana; and Lincoln Jailal, Puerto Rico.

Evangelist Joseph Tkach sent me to represent Ministerial Services. spoke during the three days devoted to ministerial-related subjects.

Lionel Estinvil, pastor of the French-language church in Port-au-Prince, Haiti, was invited to attend. Mr. Estinivil speaks English fluently, and the time he spent with other Caribbean ministers was enjoyable and profitable in building greater bond between the different language areas of God's Work in that region.

Edward Shaughan, a local church elder in the Bridgetown, Barbados, church, and his wife, also attended some sessions A videotane of Pastor General

Herbert W. Armstrong's address to ministers attending the refreshing program in Pasadena was shown.

BARBADOS CONFERENCE — Ministers, wives and other family members attending the May 2 to 6 conference in Barbados pause for a photograph there. Rod Matthews, far left, was sent by evangelist Joseph Tkach to represent Ministerial Services. Regional director Stan Bass (center, white hair) conducted the conference. Not pictured is Richard Rice, director of the Mail Processing Center in Pasadena, who also spoke.

REFRESHING PROGRAM — Ministers and wives participating in the May 10 to 20 Ministerial Refreshing Program pause on the Pasadena Ambassador College campus May 13. Individuals from Canada, England, Northern Ireland, South Africa, Ghana, Australia, West Germany, the Philippines, the United States and New Zealand participated. [Photo by Roland Rees]

Services here released the following strong offered a free subscription to The Plain Truth using the May Ine ridin Fruin using the May issue Sunday, May 15, during the weekly World Tomorrow program on KTTV-TV. Mr. Hogberg said he felt the added exposure could help promote Mr. Armstrong's efforts in the Leo America course

the Los Angeles area.

PASADENA - Ministerial

Services nere reteased the following dates and cities on evangelist Gerald Waterhouse's speaking four. July 3, Montreal and Magog, Que., combined services; July 4, Cornwall, Ont., and Platisburg, N.Y., combined Bible study; July 5, Corn bible of Den bible (Den beb) Ottawa, Ont.; July 6, Pembroke, Ont.; July 8, Kingston and Smiths Falls, Ont., combined Bible study; July 10, Toronto, Barrie, Kitchener, During the last two days the ministers were addressed by Richard Rice, manager of the Mail Process-

ing Center (MPC) in Pasadena, and Ron Urwiller of MPC's International Mail section. They discussed mail handling and response in order to standardize international procedures where applicable, and to see if facilities in Pasadena could be better utilized to serve international areas.

Since each minister in the Caribbean oversees an office operation on his island that receives donations in local currency, and meets some lit-erature needs, the discussions helped each man to do his part in speaking and working with a united voice and approach.

There are now 17 churches in the Caribbean — 12 in the English lan-guage region, with 800 members, four conducting services in French, and one in Spanish. Membership there is about 1,060. Plain Truth circulation is more than 63,000, including 48,700 copies in English.

A new opening in radio was announced the first day of the conference. The advertising agency used by the Work obtained time for The World Tomorrow for an addi-tional six days on 200,000-watt Radio Antilles in Montserrat. It will soon be broadcast seven days a week at 7:30 p.m.

During March, mail received in all the islands was up 130 per-cent over March, 1981. Income for the month was up 24 percent over 1981. The Work looks to God giving a year of exciting

progress throughout the Carib-New Zealand and South Pacific

More than 8,000 items of mail were received in April, making the

year-to-date mail received up 41 percent over 1981. Income is up 27 percent for the year to date. April ended with two radio sta-tions showing interest in the World Tomorrow broadcast. This repre-sents quite a breakthrough, as the program has been off the air in New Zealand since 1979. Brethren are hoping and praying that the broad-cast will be back on radio soon.

German area In April the Klar & Wahr sub-scription list totaled 105,000, the highest in the 21-year history of the

German-language Plain Truth. Mail response was up almost 100 percent in April compared to April last year, when the subscription list totaled 55,000.

Regular mail (letters and postcards) for the month was up 85 per-cent. Among these cards and letters was a noticeable trend toward requests for visits and information about God's Church.

A Plain Truth ad in West Ger-many's largest TV magazine, Hoerzu, resulted in 15,580 responses as of May 6.

However, as the storm ap-proached their area, the map showed that the tornado swerved east. The only damage to the Wood-ings' property was the loss of a tree snapped off by the high winds.

Mrs. Norman Wooding.

"For some time I've been mean-ing to remove that tree, because it as crowding out another one. Now I don't have to worry," Mr. Wood ing said."

suffered damage US\$750,000. The tornado veered off its path to narrowly miss two members' homes and flashed by another. Rex Morgan, a local elder, is

totaling

the Plain Truth circulation man-ager in the Work's regional office in Auckland, New Zealand

Trevor Blanchard, whose home was closest to the storm's vortex, said the tornado seemed to swoop right over his home. He said he felt a strong suction and watched his bed-room door swing open and slam shut of its own accord.

Nearby homes suffered damage, but Mr. Blanchard commented that on his property, "not even a tomato was knocked off." Bill Hutchison, business man-

Bill Hutchisoft, ousliness man-ager of the regional office here, recalled that he was awakened by "a sound like distant thunder that didn't cease," as the tornado rushed by, demolishing the roof of a build-by, demolishing the roof of a building about 150 yards (135 meters) from his home.

A map showed that the tornado's path was directly toward the Church family home of Mr. and
