By James Worthen

BIG SANDY - Herbert W. Armstrong conducted a special preaching service on the Ambassador College campus here Friday night, Aug. 15, the first of the 1975-76 school year. He was en route to Houston, Tex. where the next day he spoke to 1,800 members from six Texas and Louisiana churches and met with ministers from the church areas represented.

While in Big Sandy Mr. Arm-strong in an interview by The Worldwide News was asked about his re-cent world trip and plans for more

trips. He commented on his stay in He commented on his stay in Monaco (The Worldwide News, Aug. 4), where he had dinner with Prince Rainier III and Princess Grace, whom he called "a down-toearth person" who "handles herself well

Mr. Armstrong then referred to his recent dinner meeting in Jerusalem as "the biggest dinner we have had at any time." He called it "quite a breakthrough." He said many "top people who count in the nation of Israel'' were present.

### Plans for Next Trip

Mr. Armstrong said his next trip, which will begin Thursday, Aug. 28, will take him to Japan. He will arrive in Tokyo late Friday afternoon, Tokyo time (he will have lost a day by crossing the international date line). While there he expects to conduct a Bible study with as many as 200 people on the Sabbath.

From Tokyo Mr. Armstrong will fly to Munich, West Germany, where he will be host of a benefit dinner sponsored by the Ambassador International Cultural Foundation. He said he will probably have several

other appointments while in Europe He will return to the United States in time for the Feast of Tabernacles, during which he will visit the 12 major U.S. Feast sites.

Mr. Armstrong arrived here from Pasadena around 3 p.m. Aug. 15. After being interviewed for an hour and a half by The Worldwide News, he was host at a dinner for ministers in the Big Sandy area in the college faculty's dining room.

At the Friday-night service Mr. Armstrong said

"There is still so much more to be done. So far we have been covering mostly Asia, the Far East. Southeast Asia and Africa. But Europe is opening to us. The Balkan nations are open as soon as we can get time to go there '

He said Manfred Lachs, the president of the International Court of Jus-tice, who is Polish, wants Mr. Armstrong to meet him in Warsaw and introduce him to the heads of government of Poland and other Eastern European countries.

"And that's behind the Iron Curtain." Mr. Armstrong pointed out.

## **Governments** Overturned

"Now, we are way past due in South America, and the doors are open there in most of the nations One of our great troubles is that nations are being overturned at just about the rate of one a month . . . ."

Mr. Armstrong, citing South Vietnam and Ethiopia, said govern ment overthrows have thwarted campaign efforts in many areas.

Of his recent trip to Israel, Mr. Armstrong said a special message from Prime Minister Takeo Miki of Japan was read at a dinner there, nking Mr. Armstrong for his work in bringing Japan and Israel together.

When I gave a toast to Israel and Japan and said, outside of my own country, that they were next in my heart of all of the nations on earth, and I was glad for anything I'd had an opportunity to do in bringing them together in peace and friendship, there was an overwhelming ap-

explained what he called "the real Gospel." What caused God to create

man?" he asked. Mr. Armstrong spoke of the poten-(See MR. ARMSTRONG, page 9)

# **Classes** begin at Big Sandy

BIG SANDY - A total of 617 students, including 192 freshmen, began classes Aug. 18 as Ambassador College entered its 12th year here

A week of orientation for new students began with an assembly conducted by Dean of Students Ronald Kelly Aug. 11. Other orientation activities for freshmen included en-trance examinations, an academicorientation assembly, visits with academic advisers, a faculty reception, an assembly with student-body officers, registration and a freshman

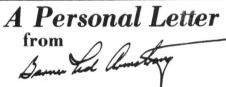

picnic Aug. 17. During the week upperclassmen also registered for courses.

New students who scored high enough on entrance exams were given a chance to take College Level Examination Program (CLEP) tests. Students who received a B or better on these tests could receive credit for courses without having to take them.

Thirty-eight students, mostly freshmen, as of Aug. 14 had received credit in one or more college courses in this way, according to Jim Gillen, academic-guidance counselor.

The number of new freshmen this year is well under 1974's record freshman class of 251, but enrollment for all four classes is about the same as last year's total of about 600 buring the past two years the campus here has grown from a student body of about 400 to about 600.

Mr. Kelly said this year's freshman class is the first in the history of this campus to include students from all over the world. Students are here

Dear brethren in Christ:

I am back in Pasadena after having spent the last three Sabbaths in the church areas of Denver, Colo.; London, England; and Detroit, Mich., in that order.

After taking the Bible study last night, I felt virtually like a "visitor in my own hometown! But it's good to be back in Pasa-

dena again, even with the choking smog we have experienced the last couple of days — especially since 350 excited new freshmen will be arriving on campus in the next few days for orientation week and the opening of college and class activities.

It was especially good to be with so many thousands of you brethren in the areas I mentioned over these past three Sabbaths! We had very farreaching and decisive meetings during my trip to London, which I want to cover in depth with you here by using large excerpts of an extensive letter I wrote to all of our ministers and our other key personnel in the latest Bulletin

## **British Growth Substantial**

We found the London church to be tremendously warm and enthusiastic, and it was good to see the faces of so many old friends again and to see so many new people. The Work in Britain is growing very steadily and substantially, and, as you will see from the material quoted in this column, we now believe it is going to be in a more stable and solid position than ever before and will be experiencing even greater growth in the near future.

Coming back to the Summer Educational Program in Orr, Minn., to reunite with my family, I was able to be at camp for the closing activities of the second session and then go to Detroit, where they told me about 3,800 brethren from areas from as far away as Ohio and even up to Canada had assembled for a special Sabbath service, followed by a social and dance that same evening.

Now it is time to begin once more the whirlwind activities of the two college campuses, get caught up on writing for all the publications, and plunge back into daily radio and plan for upcoming TV series and per-sonal-appearance campaigns!

I'll be going to Big Sandy for opening campus activities shortly after you read this - including meetings with our Festival coordinators; a session with a large number of our ministers in another "miniconference," presently under way on our (See PERSONAL, page 8)

# **Detroit marks anniversary** with Garner Ted Armstrong

DETROIT, Mich. - Gamer Ted Armstrong spoke to 3,800 people from 13 churches here Aug. 9 as the Detroit churches marked their 12th anniversary.

Mr. Armstrong, who had arrived from the Church's Summer Educa-tional Program at Orr, Minn., shortly before services, spoke on "the im portance of enthusiastically supporting the Work of God in this end time." The service was in the Masonic Temple here.

According to Bruce Vance, pastor of Detroit West, members came from three states and the Canadian province of Ontario.

Mr. Vance said the churches represented, besides the two Detroit churches, were Windsor and London, Ont.; Toledo and Findlay, Ohio; Fort Wayne, Ind.; and Flint, Ann Arbor, Gaylord, Midland,

Grand Rapids and Kalamazoo, Mich. All these churches were at one time part of a Detroit circuit.

That evening Mr. Armstrong led a sing-along and dance with Jim Thornhill, his assistant; Ron Dick, Youth Opportunities United assistant coordinator; and Jim Childress, Detroit member, as backup musicians.

The sing-along lasted until midnight. Special guests of the churches were Art Mokarow of Pasadena, director of the Work's Human Resources Information Center, Edward Smith, pastor of Cincinnati (Ohio) East; and Elbert Atlas, former pastor of Detroit East, who is now with the Church Administration Division at Pasadena. Mr. Mokarow and Mr. Smith are also former Detroit pas-

# Tour, studies spur Spanish Work

By Mark O. Rorem PASADENA — The Spanish Work is growing and credits its re-cent progress to two events that have the progress to two events that nave happened since the last Spanish re-port in *The Worldwide News* (March 3): a marathon tour by minister Rob-ert Flores and a new series of Bible studies in Bogota, Colombia.

## **Two Months**, Six Countries

The first half of 1975 saw Mr. Flores, whose home is here in Pasadena, acting as minister at large for Latin America. In two months of travel. from Feb. 16 to April 18, Mr. Flores visited members and prospective members in Colombia, Argentina, Venezuela, Chile, Peru and Ecuador.

Globe-trotting Flores-style involves visiting not only the progres-sive capitals of South America, but the places that can be reached only by train or careening bus and determina

His first stops took him to Caracas, Valencia and Ciudad Bolivar, Vene-zuela, where he visited a number of prospectives and baptized one per-son. The Work in Venezuela is pro-gressing slowly, but the Spanish Department here lists several members in that country and even more prospectives

From Venezuela, Mr. Flores moved next door to Colombia for a visit with the members in Bogota and then took a trip into the interior of the country. In Colombia his travels included a trip to El Banco, a small city accessible only by bus. The all-day trip through winding Andean roads kept Mr. Flores on a forced fast with no chance to eat or drink throughout the trip. He finally arrived in El Banco at 10 o'clock one night and began the almost impossible task of finding something to eat. He finally found food in a market on one of El Banco's mud streets.

After Colombia came a short stopover in Peru to visit members there, but Mr. Flores had to hurry on to Argentina to spend the beginning of the Spring Festival with the church in Bahia Blanca.

The Church in Argentina has been showing growth, including the recent establishment of a Boy Scout troop, all under the direction of a deacon.

**Chile Registration** The second half of the Days of

Unleavened Bread was spent with the church in Santiago, Chile. In addition to preaching, visiting and coun-seling, Mr. Flores inquired into methods for obtaining full legal registration for the Church in Chile so the Spanish Work can handle more growth. When he returned to Peru after the

Festival, Mr. Flores arranged for members in Lima to meet weekly in a hotel under the guidance of a member who presents material from Pasadena to them.

Peru was also the site of a marriage, performed in a town 30 miles from Lima. The bridegroom was one of the first Peruvian members and had spent years wondering if anyone else in Peru would ever come into the Church.

There are now 11 members and 70 prospectives there. From Peru Mr. Flores proceeded

to Quito, Ecuador, where he baptized three and then flew to Bogota for a

Sabbath meeting for 27 people. Then he returned to headquarters for a rest, but he arrived just in time to raise up the first all-Spanish-speaking church in the Los Angeles

During his trip he had visited close to 150 people and baptized 18.

## **Deluge of Requests**

The Bogota, Colombia, Bible study has seen encouraging growth under Puerto Rico-based local elder Pablo Gonzalez, who divides each month into about two weeks spent in Bogota and two weeks in San Juan, Puerto Rico.

As a result of letters sent to longtime subscribers informing them that Mr. Gonzalez would begin visiting Colombia on a regular basis, the Spanish Work found itself deluged with more than 900 visit requests. Rather than asking many individuals to wait months for a visit, several Bible studies were organized in Bogota. A total of four special meetings

were held, for four groups selected from the 900.

The meetings, held from February through April, were attended by 57, 35, 30 and 63 persons. Mr. Gonzalez also arranged as many private meetings as possible and conducted weekly Sabbath services while in Bogota.

In his report on the meetings, Mr. Gonzalez stated that "those present were from all walks of life: lawyers, doctors, politicians, university pro-fessors, students, fanatics, priests, nuns, businessmen and plain, simple people. All received the same mes-

PASADENA - Among the thousands of requests for literature received monthly by the Mail Processing Center (MPC) here are many requests in which it seems the listener or reader didn't quite get the title straight, according to Richard Rice, director. Among the requests:

How to Stop Crying.
How to Escape the Great Rupture and the Tribelations

- . What's Missing in Sex.
- The Four Horsteman of the Acroplatice.
  The Four White Horses of the Apocalypse.
- Singing Against the Holy Ghost.

sage: What is Ambassador College, the Worldwide Church of God, Mr. Herbert Armstrong, Mr. Ted Armstrong, why we are going to Colom-bia and around the world. Diverse literature was offered and shown. Most everyone requested it. Many were encouraged to study and prove things . . . Some 20 people are at-tending regular Sabbath meetings as a direct result of their attending the special meetings and later counsel-ing. And four of them have already

talked about baptism." The department hopes that the growth of the Church in Colombia vill justify the full-time attention of Mr. Gonzalez. In that event the Gonzalez family would take up perma-nent residence in that country.

# High jumper hurdles obstacles in choosing Church or sports

By John Zahody PASADENA — How far can you go as an athlete in high school if you're also attending the Worldwide Church of God?

If you ask Theresa Goethals of Auburn, Wash., that question, she would probably say there's no telling until you try. And Theresa, now a 17-year-old high-school senior, has been trying to improve her perfor-mance in the high jump since she was in the seventh grade.

How far has she gone? All the way to the National Amateur Athletic Union Women's Track & Field Championships, which were held this June in White Plains, N.Y. There Theresa placed third amon high-school girls and 13th out of 38 junior-division contestants with a jump of 5 feet 6 inches. And since the age limit is 20, she still has three

more chances to compete in that divi-

sion On May 23, about a month before the national meet, Theresa became the top high-school woman high jumper in her home state of Washington. With a leap of 5 feet 7 inches she beat all other contestants by at least two inches and shattered the previous record by four inches. And she placed third in the long jump at 17 feet 2¼ inches. Then, just two days later, Theresa

won the trophy for most points scored for high-school girls at a re-gional track-and-field meet held in Portland, Ore., by several congrega-tions of the Worldwide Church of God from the U.S. Northwest.

What is most remarkable about her career is that Theresa has never had a coach for high jump. She has worked under track coaches skilled in training runners, but no one has been available to instruct her in her specialty

## **Unfailing Support**

But Theresa feels she has had something far more valuable in the unfailing support of her father, Gil-

bert Goethals, an elder in the Ta-coma, Wash., church. "There were times when I would come home from practice so discour-aged and he would tell me to keep working," Theresa recalled when contacted from here by telephone. "One of the big things for me is

knowing that I'll always have somebody beside me that cares no matter what happens. My whole family has been that way with me."

That support became especially important two seasons ago when the state track finals were held on a Sabbath. Mr. Goethals appealed unsuc-cessfully to the participating coaches to allow Theresa to jump on Friday. She was allowed to take only her qualifying jumps, but she still fin-ished sixth.

Last season Theresa and her father appealed well in advance, and the day for the state finals was changed from Saturday to Friday.

But their troubles were not over, because Theresa's district meet was

to be held on a Saturday. With the help of her school district's athletic director, Bud Hatley, who wrote letters to the coaches, Theresa was allowed to compete after sundown Saturday evening. She qualified for the state meet and went on to place second in the finals with a jump of 5 feet 3 inches.

Church vs. Sport Theresa's observance of the Sab

bath has also caused her some personal pressure:

"I've had coaches talk to me about scholarships and the Olympics, and they've come right out and said it's going to be either your church or your sport

"But it doesn't really bother me because I know which way is the right way. My dad has helped me tremendously with that."

In his work with the youths of the Tacoma church, Mr. Goethals has given the same kind of encouragement to many other young people. He feels parents' interest in their children's activities is the key to overcoming difficulties faced by youths of the Church.

"If Mom and Dad really get in-volved, then the kids will give every-(See HIGH JUMPER, page 6)

The Wilsons' station wagon headed south down the highway. At last it was time to go to the Feast of Tabernacles. Jimmy could not keep the excite ment out of his voice as they hummed along the interstate. "Are we going to stop in Kansas City to see Worlds of Fun?'

"We sure are," replied his father, smiling as he watched the road. It was early morning and traffic was light. Two hours passed and Jim's little sis-

"But you always enjoy singing," his mother said in surprise.

"I know what Jim's problem is," remarked Mr. Wilson, "When we have a sing-along at home Major always joins in. And Jim misses his dog.'

## This Year in Texas

"But Major will get perfectly good care at the neighbor's," soothed Jim's mother. "Let's sing 'Home on the Range.' We'll be in Texas tomorrow, where all the cowboys are.

Mr. Wilson started the song and everyone joined in on the chorus: "Hooome, home on the raaaange." "Howl-l-l-l!"

Mr. Wilson gave a laugh and stopped the singing. "Jim, you sure do a good imitation of a beagle dog howling." "Howl-ll-ll-ll!"

"That's no imitation," announced Mrs. Wilson. "I'm afraid we'll have to stop the car, dear. We have a stow away. Major's behind that suitcase." "What?" Mr. Wilson slowed the sta-

tion wagon, pulled onto the shoulder of the road and stepped down on the brake. "Come here, Major."

Jim's brown-and-white beagle climbed over the luggage, tail wagging. He sat down on the seat between Jim and Susie and smiled.

"Jim, what's Major doing here?" demanded Mr. Wilson.

"I thought he would like to go to the Feast with us this year," Jim replied in a small voice.

"But I told you to take him to the neighbor's before we left." "But, Dad, I'd miss him and I saw

## Finding an Exit

Mr. Wilson cleared his throat. "It makes no difference. You shouldn't have disobeyed me. We're asked not to bring pets to the Feast. Just because another family is not obedient doesn't give us license to follow their bad example." He released the brake and pulled the car back onto the highway. We'll find an exit so we can drive back home.

"But Major always minds me good," Jim persisted.

"In strange surroundings nobody can know for certain what a dog will do. He might bite somebody. He might get sick and we aren't acquainted with a vet in Big Sandy. We'll have less problems and enjoy the Feast more if he's safe

"Yes, sir," Jim said sadly. He real-ized that what his father said made "I'm sorry, Dad. I won't do it sense. " again."

As the car turned off an exit ramp Susie began to wail: "Don't want to go home! Go to the Feast!"

"We're going, don't worry, Susie, but we won't be there as soon as I thought," Mr. Wilson assured her. 'This means we'll lose about four hours. We'll have to skip Worlds of Fun." "Aw, I've really goofed," Jim moaned. "I've always wanted to stop there. What a sap I was to try to take

At noon they arrived back at their home, and Mr. Wilson helped Jim es-

tablish Major at the neighbor's house. "We'll have our picnic lunch at the first roadside park," Mrs. Wilson sug-gested as they all climbed into the car again.

# Member describes problems facing deaf

By Radford K. Arner Jr. WICHITA, Kan. — I am deaf. My wife is deaf. Our children can hear.

How do we communicate with each other and other people? What is it like to be deaf? What are the disadit like to be deal? What are the disad-vantages? And what are the advan-tages, if any, of being deal? Is lip-reading difficult? How do people react to our speak-ing to them? Can we hear at all? How did we learn in school? How do we

get sermons and sermonettes? How do we know other we know when the baby cries? How do we know when someone is knocking at the door or ringing the door bell?

Some of you have wondered what it is like to be deaf and how the deaf communicate with other people.

The deaf have two kinds of com-munication difficulties: difficulties in lip-reading people and difficulties of others understanding us speak.

My wife and I both have been deaf since we were small. I learned to speak and to lip-read in a school for the deaf in St. Louis, Mo., where communicating with hands is prohib-ited. I had started to learn to lip-read and to speak when I was about 3 years old.

I lip-read by looking at a person's lips while he speaks. Most of you look at a person's eyes, not his lips, hen he speaks. Are there conditions to successful when he

lipreading? Yes, it depends on shape of lips,

movement of lips and speed of lip movements. A person talking to me must talk slowly and move his lips clearly. He can talk to me without voice if he wants to, and I will not realize any difference.

## **Fast-Talking Persons**

I have a hard time reading the lips of a fast-talking person, or a person who moves his lips very little, or a person who has deformed lips, miss ing teeth or no teeth at all, or a person who moves his head a lot

Some of my friends have mustaches; I have difficulty reading their lips. I sometimes have to ask them to tilt their heads up a little so I can see their lips better.

I can understand women better than men because their lip movements are easier to understand. Gestures help me understand con-

versations better. If a person's lips are easy to understand, I can lip-read at least 90 percent of all that he says.

Lipreading can sometimes be mis-leading. I have had several misunderstandings. A person speaking to me may be saying something differ-ent from what I lip-read.

To understand this problem, have someone say the following words to you: doe, toe and no. They sound different, of course.

Have the same person say these same words again, but this time without voice. You'll notice they lin-read alike

If a person says these same words. this time without voice and in differ-ent order, it is impossible for the lipreader to know which words he is saying. Another example: sheep, cheap

and jeep. They are pronounced dif-ferently, but they lip-read alike.

Some more examples: coat, goat; cold, gold; 50, 15. I must concentrate while I lip

read. If I do not get what is said to me, I have to ask a person to repeat it or write it down

## Voice Problem

Another problem in communicating I have is my speaking voice. Peo-ple who hear me speak for the first time usually do not understand me because I speak so differently from other people. I speak without accent and my voice tone is steady because I cannot hear my own voice. I also

Mr. and Mrs. Radford K. Arner Jr., members of the Wichita Kan., church, are both deaf. Mr Arner wrote this article to explain problems that face deaf people He has been deaf since early childhood.

His wife, the former Josephine Gonzalez, is a native of the Philippines. Her parents discovered she was deaf when she was about a year old.

Mr. Arner was introduced to the Plain Truth by a deaf friend in 1967. He was baptized nine 1907. He was bapitzed nine months later and his wife shortly thereafter. Mr. Arner is a Spokesman Club graduate and works for the Cessna Aircraft Co. in Wichita. The Arners have five children

## may speak too fast.

Several have asked me if I am speaking German, Spanish or some speaking German, Spanish or some other foreign language. If I am talk-ing to a person for the first time, I must talk slowly in a quiet place, and I must be relaxed and watch my speed so he will understand me.

Let me give you an example of an embarrassment caused by poor speech. At work, when I was doing some engineering on pulleys, one engineer asked me how I was. I told him I was having some difficulty with pulleys. He appeared somewhat unset

I continued working on the pulleys. A few days later I came to that engineer and had a chat with him and he asked me how I was. I told him I was fine. As we continued our con versation, he felt much better. He told me that he thought I had said I was having some difficulty with police

## Talking With Each Other

My wife and I talk and lip-read to each other. I usually talk to her with-out voice. She usually talks to me with voice. When there is a word or phrase I do not understand, we use "finger spelling." I would say that we talk and lip-read each other about

## Runner covers a lot of ground to achieve a personal goal But now Mr. Canard realizes that

By Jim Bennett BURLEIGH HEADS, Australia - Keith Canard, 34, member of the church here, has achieved a personal goal: Competing in the Queensland Marathon in July, Mr. Canard took the title, finishing in the fastest time

run here for several years. Running is something of a profes-sion for Mr. Canard, as his friends in

the office here well know. His running career started two years ago with a run in the Sydney City to Surf Classic. In that first run he came in 46th (in a field of more than 3,000).

be competing. Other challenges are still ahead for

ing, for instance the Spokess Club? The easiest part is talking to the Spokesman Club members. The

most difficult part is getting what was said in the meeting. I usually get lost

in the conversation because every-

body talks and it is hard to find out who is speaking next. When speakers

move their heads a lot I cannot keep

ette from other brethren the next Sabhath I can talk over the telephone in two ways. I usually get my son or some-one else to the telephone and he tells me what the other party says and I talk to him directly over the phone. Or I sometimes let my son or some-one do all the talking for me. I used to have a Teletypewriter/Phonetype system, similar to a Telex system, on which I could type to anyone else who had a similar system. I sold it several years ago because there weren't many such systems in other cities

5

When it comes to movies and television programs, if there are no subti-tles we understand action-type programs better than talking-type pro-grams. We get little from talk programs by lip-reading, and we must depend on someone else to interpret the programs for us.

There is a subtitled news show on TV in this area every night.

## Hearing Loud Noise

I can hear very loud noises. I can hear cars honking, jets flying low, gunshots, hands clapping, a TV when the volume is high.

I had a hearing aid when I was young. I was told that I spoke better while wearing an aid. But I hear everything as noise, not as intelligible words.

What are the advantages and disadvantages of being deaf? The disadvantages: You cannot hear sermons, sermonettes, radio,

TV, jokes, music and conversations. The advantages: You cannot hear

noises, rumors, gossip, complaints, criticism and false doctrines.

they had to adjust their lips so we could understand them. Now they sometimes use gestures to indicate what they want. Sometimes our children talk to us without voice and to other people with voice. Our children have learned to lip-read.

By Paul Meek HRIC Assistant Director PASADENA — The thought of losing the family breadwinner is so-

losing the family oreadwinner is so-bering. And what happens when he dies is often even more sobering. According to the Sarasota, Fla., *Herald-Tribune* of May 19, 1974, an estimated 300,000 women of all ages become widows each year. Or, to put it another way, 2.5 million widows in America are now heading house-holds (caring for children) alone, not including the number of widows without small children. The latter accounts for another 7.5 million.

How much is the family income reduced after the death of a breadwinner?

On the average, 44 percent. And that includes all benefits plus income from work done by the widow. For example, if the husband earned \$100 a week, his widow would receive only \$56 for the same allotted time from her income and such benefits as

from her income and such benefits as Social Security, life insurance and veteran's benefits. Unfortunately, according to a government survey of 1,744 wid-ows, 52 percent had used up their life-insurance benefits in 18 months. And within only 60 days one widow of four had exhausted all life-insurance money. Further tragedy: One of four widows never receives all the benefits due because the hus-band never bothered to tell his wife about such insurance policies or be-cause he lost or discarded them.

## Life a Gamble?

The average American family car-ries about \$30,000 worth of life in-surance. A lot of money. But the same amount put into a 4 percent savings account and drawn out at the rate of \$300 a month will be used up in 10 years. At \$500 a month, in only six years. Few Americans have to do the

whole job of protecting their family's future all by themselves. Ninety percent of the labor force is covered by the Social Security system or Old Age, Survivor's & Disability In-surance (OASDI). A widow's in-come starts immediately if she has children under 18 (22, if in college). When the youngest child reaches 18, child-rearing income stops and she receives nothing more until she is 60, when her widow's benefits start.

#### All Is Not Lost

Here are some steps husbands and widows can take to rectify any financial plight:

 Send a postcard with a request for a 'Statement of Earnings,'' with your name, address, Social Security number, date of birth and written signature to: Social Security Administration, Box 57, Baltimore, Md., 21203. This will reveal what your up-to-date earnings are in your Social Security records.

• Figure what a widow and child will receive from Social Security in the event of the breadwinner's death. This can be done by obtaining a copy of the 504-page Social Security Handbook, available at most li-braries and from the Government Printing Office (\$4.30). Ask local Social Security officials for help if necessary.

• Contact a reputable insurance • Contact a reputation insurance agent to assist you in determining how much income is necessary in providing for your family needs above what would be available from Social Security.

Every family's financial picture is different. Life insurance requires tai-lored plans according to a family's

## It's nice to have job

By Mike McDermott SEATTLE, Wash. — An unusual set of circumstances led to the unex-pected move of Steve and Linda

Ecteron and family from Seattle. Several months ago Mr. Etherton had taken a job as plant manager of a printing company here. He previous-ly had worked for the Ambassador College Press for nearly 12 years in Pasadena, until it was sold to the W.A. Krueger Co. He felt it was a good time to make a break from the Los Angeles area and move to the Northwest where he had relatives.

Mr. Etherton was plant manager with the Seattle firm when he was offered a more promising position with another local company. He accepted the job and began learning all about it he could. He said it was a fine job, for three weeks. The company then ran into financial difficulty and laid Mr. Etherton off.

He still had a few contacts in the printing industry to check with in the area, but none of the job offers seemed to be the right one. So Mr. Etherton decided to call

Ambassador College in Pasadena to see if any printing positions were available

He telephoned Ray Wright of the college's printing operations. Mr. Wright said a man was needed immediately to help produce the new Human Potential magazine and to handle other responsibilities. The addition of Human Potential,

the new publication of the Ambassa-dor International Cultural Foundador international Cultural Founda-tion, made it necessary to add another trained person to the college production staff. Mr. Wright told Mr. Etherton the job was his. By the end of July Steve Etherton

Each winner will receive \$15 cash. a copy of The Boy Who Sailed Around the World Alone and a box of 72 crayons.

## **Overwhelming Response**

John Robinson, managing editor of *The Worldwide News*, was among those overwhelmed by the response to the contest.

"We were really amazed at the number of young boys and girls in the Church who entered the contest," he said. "I would have been pleased with three or four hundred entries but was overwhelmed by the number we received. We feel that it reflects a genuine interest in that type of ac-tivity for the younger people."

Judges for the contest were Sheila Dennis, a Big Sandy member and producer of the original artwork on the entry blank; Mike Hale, Worldwide News artist; and Mrs. Ellis Stewart, a teacher's aide in Big Sandy Elementary School.

"We didn't know how many en-"We didn't know how many en-tries would come in, but I was very happy that this many turned up," Mr. Hale said. "The judging was fairly clear-cut, though. We passed each entry before each of the three index and bioled the there judges and picked the best from each judges and picked the best from each age-group. From these we chose the winner and 11 honorable mentions."

Mrs. Dennis was surprised at the talent shown by some of the younger entrants. "I thought at first that the illustration might have been too large, but the kids came through really well. There were many fine en-tries, making it difficult to choose the winners.

Mr. Robinson said the WN is considering future contests, possibly a drawing contest for children.

Another proposal would let en-trants illustrate a children's story for The Worldwide News

I expect to be back in Pasadena only two or three days later for simi-lar activities here.

Excerpts from the letter I wrote to all of our ministers follows:

## 'Bulletin' Excernts

"We examined the idea of reopening the British campus with the following objectives: 1) no further monthly allocations beyond January 1, 1976; 2) utilization of the indigenous British income; 3) no serious effect of this activity upon the WORK in Britain!

We then carefully examined the entire Work throughout Britain as it stands NOW. We took a thorough look at the 1974-1975 budget (last year's picture), comparing it with the 1975-1976 budget (this year's pic-

ture). "The study included the details of the IMPACT of reopening the British campus, with a careful examination of the original plan (to close the campus and close the press) and compar-ing the advantages of each. We took a nainstaking look at the future work-

ing CAPITAL picture in Britain. "Present at the meeting conducted on the campus were Messrs. Dart. McCullough, Brown, Hunting, Wright, Bicket and myself. [Ronald Dart is executive vice president of Ambassador College, Big Sandy; Les McCullough is director of the International Division, Pasadena; Frank Brown is business manager for the Work, Pasadena: Charles Hunting is director of the Work in Britain and Europe; Jack Bicket and Ray Wright are on the Business Office staff, Pasadena.] We looked at mail income trends, the analysis of monthly income trends, and the statement of present cash position especially the overdraft situation in Britain.

"First, from the purely financial aspects of the study, it appears that the reopening of the British campus as proposed would not only maintain the present deficit levels of our entire operation in Britain (use of an over-draft even beyond allowable limits supported presently only because of 2T [second-tithe] and 3T [third-tithe] balances which will soon be wiped out because of the Feast), but will increase that deficit over the months to come by creating a further drain on a fairly stringent budget. "We would have attempted to

## **Classes** begin

(Continued from page 1) from West Germany, South Africa, Rhodesia, Sri Lanka, Australia and

Canada, as well as the United States, The senior class is one of the smallest in years. Only 73 seniors began the year here, and of these only 37 had entered Ambassador three years ago. The attrition rate of the class of 1976 has been 71 percent since the class began with 126 students. Forty-nine men and 24 women are in the class.

The junior and sophomore classes however, are of record size, with 150 and 202 students respectively, ac-

cording to the Registrar's Office. Six members of the faculty were added this year. They are Dr. Ken-neth Brasted, professor of speech, who will head the Speech Department; Sandra Hilgenberg, instructor in home economics; Joseph Mc-Keon, associate professor of French; Dr. Ed Ronish, as ssistant professor of mathematics and physics; Dr. Gary Smith, assistant professor of busi-ness administration; and Dr. Calvin Tormanen, assistant professor of nistry.

The actual cost to each student would be over \$8,000! "First, let's take a look at the fac

ulty and administration situation. To divert manpower into the teaching of classes and all of the related activities

in the operation of the campus in

Britain would have affected the Work in Britain extensively.

Sound Position

Hunting's article elsewhere in this

issue the WORK in Britain is very healthy and is growing steadily and is

in the soundest position it has ever

been in as we continue to utilize the one door which has been opened to us

in Britain of newsstand distribution of the Plain Truth, with follow-up

"Our monthly growth in church membership is steady and substan-

tial. Formerly, when many of our ministers had to either fly or drive to

nearby churches to conduct a Sab-

bath service and then hastily depart for some campus activity perhaps the very same night or the following day,

the British churches were not re-ceiving the kind of full-time care they

"Though we might strive to avoid

a repetition of this, it will be in-evitable to a certain degree. "There would have to be reloca-

tion of certain individuals, perhaps affecting the Pasadena and the Big

Sandy campus as well, and possibly n our foreign offices. 'Looking at it from the student

level, perhaps many of us do not realize that education, even at Cam-

bridge and Oxford, in England is FREE! We are hardly to be accused of

"depriving the British people of an education" by our failure to reopen

the academic complex of Ambassa-dor College at Bricket Wood! Ac-

tually, the reverse is true! "For example, in the feasibility study, it would have to be assumed

that our 120 students (only 40 of

whom could have been employed on

the campus itself with a resultant im-

pact on cash flow) would have to

match the tuition and student charges

Bricket Wood campus the average student was paying \$220 tuition, \$90

lectures and private studies.

'As you will see in Mr.

"Even as it was operated in the past, the Bricket Wood campus, with its very low tuition costs and other fees, meant that the average British, Australian, South African, Canadian or other student was falling behind in somewhat serious debt throughout his entire college career.

As a case in point, say an average Australian student came to Ambas sador College for three or four years. Even though working, he would be gradually falling in debt at that ex-tremely LOWER figure of \$660 for two semesters, until at the end of the three- or four-year college career, he would probably owe the college in the vicinity of \$1,000 or more.

"If he were NOT absorbed into the Work - and this is the increasing likelihood today — he would pre-sumably return to Australia and at tempt to find gainful employment in an area where he might be of some service to the Church or the Work at some future date. His average weekly wage would be in the neighborhood of \$100 per week! Looking at the high costs of food, housing, and other vital necessities in Australia, plus incredible tax burdens, it would be literally years (perhaps 10 years or more!) before that average Australian student could ever expect to pay back his indebtedness incurred during his brief college career!

'It is unimaginable what the financial difficulties would be if that debt reflected something in the neighborhood of \$8,000 as opposed to \$1.000!

'Our feasibility study showed, then, that in many ways it would be unfair to the students we would at-tract to the Bricket Wood campus!

## **Big Sandy Work Program**

'Another factor in our thinking was the reaction of the broad ma-jority of our international students presently on the Ambassador campuses in both Pasadena and Big Sandy. Through our work program in Big Sandy (a great boon to foreign students), we are able to provide far more employment and financial sethan we would be if we re-the Bricket Wood campus. curity opened the Bricket wood camped "With our large incoming freshman classes, our exchange program. our summer schools under way, we are doing a very efficient job in open-ing Ambassador's doors to any and all truly deserving international stuwho desire an Ambassador education! It must not be assumed that any delay or even failure to re-open the Bricket Wood campus would in ANY way deprive any inter-national students of either an education OR access directly to God's Work!

'From the point of view of the physical plant, the buildings on the Bricket Wood campus are just now 'peaking out' in their usability. That is, while most of them are in fine shape, there is the immediate requirement to begin fairly extensive maintenance programs. (For exam ple, the gymnasium/natatorium structure needs some fairly extensive work in the roof, which would cost in the neighborhood of \$30,000.)

"On the one hand, then, the cam-pus is at its very best possible condition for sale, should that materialize, but, on the other hand, it is precisely at that place where the maintenance and upkeep costs are going to INCREASE year by year. "But now for the really important

clincher:

## Britain in the Black

"IF we continue with the previous decision (close the campus and close the press in Britain), we will begin to see the WORK in Great Britain totally in the black, on its own financial feet, and gradually building up a SURPLUS to allow greater work to be done in the areas of newsstands, campaigns, and/or all other activities (should some wonderful miracle occur and the government open up broadcast-

ing to commercial interests)! "At the present time we are more than one-half million dollars IN DEBT (using the overdraft) in Britain! If we continue with the original decision and with the sale of certain peripheral properties, plus the total closure of all in-house printing in Britain, our onthly savings will be such that by this time next year we will have totally retired all of our present over-draft indebtedness and gradually have begun to build a surplus in Britain! Frankly, fellows, the more we examined all of the practical aspects of the situation, the more it appeared that the decision was virtually made for us!

'When we get right down to it, the DESIRE to reopen the Bricket campus is more of an emotional desire — a desire to maintain a very beautiful plant, to see the activity of young students living their lives in that beautiful environment, and to observe the hum and buzz of the

maintenance of our sister campus in England, just as it has been for all those years since 1959 when my father and I first discovered that property and saw the possibility of the opening of a branch campus in En-gland with a full four-year coeducational liberal-arts curriculum.

"But from any practical point of view, especially considering the needs of the WORK first, it becomes increasingly clear that no matter how much we might humanly and per-sonally *desire* to see the hum of activity on the British campus, all the factors preclude it, at least under the present circumstances.

"IF, for some reason, the campus is virtually unsalable (it has been listed with one of the leading estate agents in Britain to see what the chances are of its eventual sale), and once the Work is SOLIDLY on its own feet, creating even a budget surplus, and IF the doors of mass media remain closed to us in Britain, meaning such a surplus would gradually accumulate into a sizable amount, THEN it may become obvious (barring any national economic disasters) that we could reopen the campus a few years further on down the line, if

the need were really critical. "So, it appears from every aspect that our original decision was, after all, the best decision — and within a matter of months, we will begin to see the British Work on its own feet, in a very healthy financial condition able to expand in many areas, such as traditional newsstand distribution the conduct of many more campaigns, and, if the door is opened. the use of electronic media.'

## Feast Around the Corner

I hope you have all by now received my special letter concerning the upcoming Holy Day seasons, containing your Holy Day envel-opes. I hope all of you brethren will join me in praying that we will really break all records in the upcoming Holy Day offerings to get God's God's Work back on a good, steady, posi-tive upward trend! It seems that the Feast is just barely around the corner, and almost before I know it we will be on our way to 12 Feast site

Hope to see all of you brethren there!

The next morning Mr. Armstrong flew to Houston in the G-II, where he was host of a luncheon for 32 minis-ters and their wives in the Warwick Hotel.

Hotel. After the two-hour lunch, during which he addressed the group for an hour, he went to the Houston Music Hall, where he spoke to 1,832 mem-bers from the Austin and Waco, Tex., the Lake Charles, La., and the three Houston churches.

Mr. Armstrong again covered the potential of man on earth.

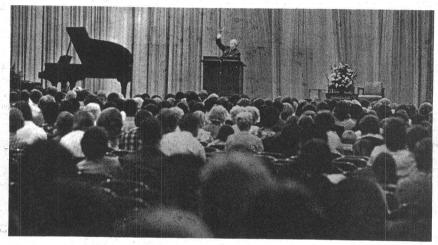

Frank Brown of Pasadena, busi-ness manager for the Work, who ac-companied Mr. Armstrong on the trip, gave the sermonette before Mr. Armstrong's sermon, as he had here the night before, on the financial side of the Work.

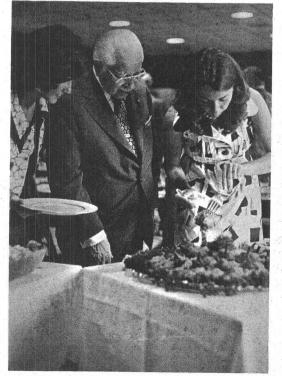

After services in Houston Mr. Armstrong returned to Pasadena.

Other activities included camping out the night before, volleyball, boys' softball, horseshoes, swimming, a tomato-growing contest and visiting. Paulette Jameson.

## Happy 25th

ELKHART, Ind. — Quietly and stealthily members of the Elkhart, Fort Wayne and Michigan City, Ind., churches met July 12 at Jim and Dorothy Hosterman's home for a sumrise annicerscor party for Harry surprise anniversary party for Henry and Erma Bontrager. It was the Bon-tragers' 25th wedding anniversary.

Mr. Bontrager is a local elder. Mr. and Mrs. Bontrager were being entertained on a back patio by a small group of people, thinking that was the whole party. They were surprised after being carefully enticed into the recreation room.

The Bontragers received many gifts of silver, including a coffee-and-tea service inscribed: "From the Fort Wayne Church." *Mildred Skin*ner.

## Fathers and Sons Camp

MONTGOMERY, Ala. — The Montgomery and Geneva, Ala., churches, directed by pastor Paul Kurts and assistant pastor Rick Beam, sponsored a father-son camp-out at Blue Springs State Park in southern Alabama July 11 to 13. About 50 fathers and sons attended. The sons ranged in age from 4 to 18. They swam in the natural springs, fished, played tennis, attended services on the Sabbath and built a fire that night. Paul Kurts.

## Back to Nature

TOLEDO, Ohio — Girls in the church here participated in a week-long camp-out recently. Nine acres of woods was the

campsite, on the property of Mr. and Mrs. Bill Evans, members, in Holland, Ohio.

The camp director and coordinator was Mrs. Sheila Yeager. Her husband Al taught map and compass reading to the girls, drawing from his four years' experience as park ranger at nearby Metropolitan Park. Mrs. Barbara Gilliland and Mrs.

Happiness and Sadness

WAUSAU, Wis. — It was a happy and sad day for many brethren in northern Wisconsin. Happy be-cause a new church here would mean less travel on the Sabbath, but sad because it would separate many four-year-old friendships.

As of July 12 about 210 brethren in north-central Wisconsin are attending services here, in this industrialfarming community of nearly 60,000, establishing a new circuit off the four-year-old Appleton, Wis., church, pastored by Jess Ernest.

A total of 240 turned out for the church raising at John Muir Middle School, where services are held

weekly in a modern auditorium. Mr. Ernest welcomed new brethren and visitors from three areas where they had attended. The largest group had attended in Appleton, 100 miles away, while others had at-tended at Wisconsin Dells and the Minneapolis-St. Paul area

Mr. Ernest introduced Dave Havir, newly ordained local elder, who is the associate pastor and resident elder here. Mr. Havir had been a ministerial trainee in Omaha, Neb. After the 9 a.m. services members had a picnic lunch.

After lunch three cakes were served that had been baked by Mrs. Joyce Wendt of Merrill, Wis. On one

cake was an inscription, "The Word of God Is the Foundation of Knowledge." Another gave the date the Wausau church began. The third bore an elaborate reproduction of the Ambassador College seal. Gary F Ehman.

## The Dirty Dozen

CAPE GIRARDEAU, Mo. going-away party and dance was held Saturday night, July 26, for 12 Cape teens who as of Aug. 9 are attending the new Worldwide Church of God in Poplar Bluff, Mo.

The party began at 8:30 with dancing. Around 10 o'clock refreshments ing. Around 100 clock tertestiments were served. A cake had been baked for the "dirty dozen," with each one's name proudly displayed on the cake in white icing.

As the evening drew to a close a song was played as a finale. Every-one danced to "The Last Farewell." With that song, the party given in honor of the "dirty dozen" came to an end. Brenda Hornbuckle.

## Walnuts Into Beef

SEATTLE, Wash, - Last year the Seattle South Spokesman Club borrowed a truck and bought a load of walnuts. Club members sold the nuts to members and nonmembers and ended the club year with an excess of about \$200 in the club trea-

sury. The Spokesmen took the money and purchased a beef hindquarter, then invited the local church to a beef-roast picnic.

Members were to bring their own fixin's; the club would supply the beef.

So July 27 the beef roast was held at the home of a member's father, who enjoys sharing his parklike backyard.

Member Paul Vaughn reported the fire for the roast was started at 4 in the morning. By noon the beef was still being cooked. It had to be tied on the spit with coat hangers; it was turned with garden rakes; it caught on fire once; people said it was delicious.

About 270 members consumed the entire hindquarter, played football and volleyball and flew Styrofoam models of a Boeing 747. Mike Mc-Dermott

## **Champaign Potluck Dinner**

CHAMPAIGN, Ill. — About 100 brethren from the church here camped out at Salt Fork Campground the weekend of June 27.

Friday evening minister Robert Persky conducted a Bible study under the stars in which he discussed the new magazine of the AICF, Hu-man Potential. Sabbath services were the next

morning at 11 o'clock in the shade of an oak tree with 150 attending. After services was a potluck din-

ner. That night 50 of the brethren stayed for a sing-along and camped out until Sunday. Jonnie and David Perry.

#### Off to AC

LAS CRUCES, N.M. - After services July 26 members gave a surprise farewell party for students going to Ambassador College this fall. The party was at a park directly across from where the church meets. Weeks before, some members had

collected donations for gifts for the students. Each was presented an envelope of money that had been con-tributed by local members.

From this area five students are going to Ambassador. Those going to Pasadena: Cathy Woldt and Wakeen Abraham. Those going to Big Sandy: Michael Abraham, Karen Grizzle and Kevin Grizzle. Wayne

### **Ministerial Water Fight**

HOLDREGE, Neb. — All it takes to make a Sunday special during the to make a Sunday special during the summer in Nebraska is a picnic. That's exactly what the North Platte and Grand Island, Neb., churches did July 21 in Holdrege City Park. It started at 10 a.m. with a men's softball game. At noon everyone de-voured all the food the ladies had

prepared. The high point of afternoon games was a husband-wife water-balloon toss. Amazingly, all the balloons broke on the ladies' side of the field. Games for teens, preteens and even children 4 to 7 were held.

The final event was a water fight that seemed to be directed at Donald the minister. Doug Hooser, Schrader.

## Six Teens' Fun

MERIDIAN, Miss. - The six teens here had a full day May 30. After Sabhath services four of the teens attended a buffet at the home of local elder Thomas Steinback. Then they played Bible charades and later donned their swimsuits for sun and relaxation.

After sundown they visited a shopping mall and petting zoo. Then they went to the new, one-of-a-kind McDonald's Cafeteria. It is

reportedly the only McDonald's in the world that is decorated with antiques and that has a cafeteria line.

Finally, they went roller-skating, a first for all of them. Those participating in the day's ac-

tivities were Jane and Jerry Harris, Cathy Moore and Bonnie Charla D. Steinback. Yeates

## **Dunking Your Best Friends**

CAPE GIRARDEAU, Mo. July 19 and 20 proved to be a night and day of adventure for about 70 members of the Paducah, Ky., and Cape Girardeau churches. An over-night camp-out and float trip down Current River at Van Buren, Mo., had been planned.

Saturday-night activities for some included finding the most secluded place to get some shut-eye. Others searched for places with the most all-night excitement. Everyone started arising at the

crack of dawn Sunday to prepare canoes and inner tubes for the float down the river.

Around 10 a.m. the 14-mile trip began. Dunking your best friends, winding around coves and trying to stay clear of currents were part of the day's adventures. Brenda Hornbuckle

## **Personal Responsibility**

ATHENS, Ohio - Nelson Haas, pastor of the Parkersburg, W.Va., church, conducted this area's first Bible lecture June 16 and 17. Attendance for the lecture was 25, about half of whom were non-Church members.

During the lecture, held in a build-ing on the local fairgrounds, Mr. Haas spoke on the end time and per-sonal responsibility in God's Commission

The next week a Bible lecture was to be held in Marietta, Ohio.

TULSA TEENAGERS — Fifty-five teenagers and chaperons from the Tulsa, Okla., church spent Aug. 1 to 3 on the Big Sandy campus of Ambassador. The group had been to Galveston, Tex., and AstroWorld, a Houston, Tex., amusement park, and spent the Sabbath in Big Sandy on the way back to Tulsa. [Photo by Tom Hanson]

## Follow-up studies for the two lec-tures were to be held in Athens June 30 and July 2. Ken Schoon. **Performing** Live

DENVER, Colo. — The church here staged a talent show June 22 in the Sinclair Junior High School Auditorium. The show got off to a lively start

with everything from tumbling acts to melodic music.

The show allowed performers of all ages, especially young entertain-ers, to perform before a live audience to prepare for the coming nationwide Church talent contest. Gerald Schnarrenberger.

## French and English Studies

MONTREAL, Oue. - This bilingual city was given a strong witness as two powerful speakers simultaneously held public Bible studies

Dean Wilson of Vancouver, B.C. head of the Canadian Work, lectured in English; Dibar Apartian of Pasadena, head of the French Work, dena, nead of the French Work, spoke in French. The men spoke in different loca-tions on two consecutive nights. The studies gave local brethren a

chance to participate directly in the Work by attending the studies and answering questions of newcomers.

Mr. Apartian is well known by French-Canadians, who have listened to him for many years on the French radio broadcast, Le Monde a Venir.

About 20 public Bible studies are planned by the Montreal English and French churches this year. These studies are part of 600 scheduled for all of Canada. Alex Evdokias.

### Farewell Outing

EHRHARDT, S.C. — The Columbia and Walterboro, S.C. brethren met here June 29 at Rivers Bridge State Park for an outing. A men's softball game was held in

the morning, with Walterboro win ning.

During the noon potluck meal, farewell gifts were presented to the Joel Lillengreen family. Mr. Lillen-

Mrs. Lena Thomas headed a hike for the girls, describing for them the objects they found along the trail.

Both groups met back at the camp for lunch. Then they broke camp and went home. Mrs. Frank W. Moon Jr.

## Dayton Teens Go North

Each evening a camp fire was built. Ben Sprinkle and guitar har-monized with Mr. Watkins and his harmonica during sing-alongs. Wavne Chapman

## Floating Dance

NEW YORK - About 350 tickets rere sold for a July 6 boat trip around the island of Manhattan. Maceo Hampton, one of the pastors of the church in Newark, N.J., led a band of musicians that drew upon the tal-ents of members from all the area churches.

Despite heavy rains that ended shortly before the trip was to begin, a large crowd showed up. Most who came enjoyed picnic dinners under 13

softball pitching, badminton and socializing in the shade. Indoors were games and a country-music perfor-mance by Roger Hoover and Ray Wilkerson, members. Then, on June 29, 18 young peo-

ple and six chaperons visited Opryland U.S.A., an amusement park in Nashville, Tenn., after a 2<sup>1/2</sup>-hour skating party the previous night. Between these two activities were

meals and an overnight stay at the home of local elder Steve Moody and wife Vivian. The most notable incident occurred at around 4 a.m. when, incredibly, two of the girls started talking and answering each other in their sleep. Larry Hahn.

## **Two Bowling Green Events**

BOWLING GREEN, Ky. - Two social events were held recently in the Bowling Green church.

The church got together June 8 at a private lodge above Shanty Hollow Lake, near here, for a beef barbecue. The lodge, atop a slope leading to the lake, provided a secluded environ-ment for God's people.

Frank Tomes, a member, had do-nated an entire beef, providing steaks and hamburgers for the 75 or so who attended

## Lani Kelii's Dancers

BAKERSFIELD, Calif. - The church here held its first *holoku* ball June 22. About 200 people from the community paid \$7.50 each for the Polynesian dinner, *holoku* parade and entertainment by the Lani Kelii Polynesian Dance Club. (A holoku is a type of Hawaiian dress.)

Judges for the best *holokus* were Bakersfield Mayor Don Hart and wife, county supervisor Gene Young and wife and other community leaders.

Thirty women entered the holoku parade. First prizes in three cate-gories for the *holoku* gowns were \$100 gift certificates donated by Bakersfield merchants,

The Lani Kelii Polynesian Dance Club was the main attraction, with authentic dances from the islands of the Pacific. Lani Kelii's full name is Mrs. Lani Kelii Sexton. She is a native Hawaiian (also a member of the Church) and has worked with the club for a year.

Minister Dan Orban reported that the church cleared more than \$400, which will be used for hall rental for minicampaigns and public Bible studies. George N. Anderson

### **Ministerial Welcome**

HUNTINGTON BEACH, Calif. The Women's Club of the Santa Ana, Calif., church welcomed new minister Rick Gipe and wife Glenna and Mr. Gipe's new assistant, Larry Boyts, and his wife Stephanie at a luncheon at Moody Park Recreation Center here July 23.

Amy Harman was hostess and had asked the women to bring their best epicurean delights. Forty-eight adults and 24 children

ate a tasty lunch of fruits, salads, pastries and sherbet punch. Connie Davis.

Club. Music was supplied by Kitchener's resident disc jockey, Gary Bauman, who played a variety of music ranging from the oldies of the '50s to the hits of today's charts.

As the lights dimmed and the mu-sic began, the 150 attending began moving slowly to "Only You" and gradually accelerated to the hoppin and boppin' of "Crocodile Rock."

Several door prizes were awarded; profits will be used to help finance a teen camp-out and canoe trip on the French River near Sudbury, Ont. The dance was attended by the dis-

trict supervisor of eastern Canada, Gary Antion, and his wife and two local ministers. Tony Wasilkoff of Kitchener and Jack Kost of London, and their wives.

The evening of dancing and fun ended at midnight. Tony Stryker.

## Fair Booth Minus Booth

NORFOLK, Va. - One afternoon in June local elder Curtis May of the Norfolk and Richmond, Va., churches was visiting in Yorktown, Va., when he noticed a sign: "York County Fair, June 27 to July 5."

So he contacted the fair coordina-tor to see if arrangements could be made for a booth at the fair to be sponsored by the local church congregations.

With only a week until the fair, members put together a display, but by the June 25 deadline hadn't been able to build the booth. But the fair coordinator just happened to have a space for a display inside a tent, so a booth wasn't needed after all.

The results of the display: One hundred fifty requests for literature were received, and 49 questions concerning the Work were answered

"I think the response was good considering the fact that it was a small county fair," Mr. May said. Curtis May

## Fun at Flathead Lake

KALISPELL, Mont. — The new Kalispell church had its first official social June 27 at the home of member Curt Chagun on the shore of Flathead Lake

Daylong activities of boating, canoeing, swimming and water fighting were interrupted only long enough for a Montana-style potluck dinner, which included Montana huckleberry pies. A number of boat-against-boat

water fights occupied most of the afternoon. The best battle took place

when three of the young men com-mandeered one of the canoes to attack the canoe of minister Rand Millich and member Chris Holding. With a little encouragement from Mr. Holding, the attackers received their just reward by having their canoe capsized and themselves head over heels in the lake.

After a few square dances the members headed home. Randall Stiver.

Now he has been transferred to Pasadena, where he is working in the Church Administration Division. James L. Davis.

## Pea Transfer

AUCKLAND, New Zealand About 200 people met for a "family afternoon" July 12.

The youngsters played vigorous games and relays that included "bal-loon hockey," "pea transfer" and "walking the plank." Meanwhile, the adults amused

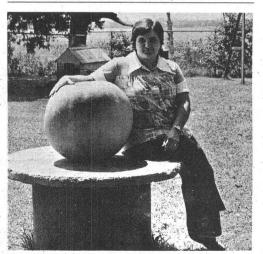

themselves in a guessing competi-tion, trying to identify photos of members taken when they were many years younger. Cheering onlookers watched mus-

cles bulge in a hard-fought armwrestling contest.

Guy Ashton auctioned off mystery parcels, and a fancy-dress parade was held, plus a game of "human naughts and crosses."

Later, awards were given for the biggest and best fruits, vegetables and floral displays.

A highlight was animal and bird calls. Members and children imitated cows, dogs, ducks and roosters almost any creature they could think of. Rex Morgan.

In organizing the last dance, one more couple was needed to round out a set. Dancers noted that Henry Estes had sat out each dance, so everyone chanted, "We want Henry!" Henry and wife Marz allowed

themselves to be persuaded onto the floor for the last dance. Dalton Medford.

#### Periodic Blasts

PEORIA, Ill. - A group of single adults from here spent an evening on a triple-decked paddle-wheel steam-boat on the Illinois River July 26. The singles were on the boat for

two hours under a nearly full moon. A calypso combo periodically blasted out old, familiar tunes on the third deck. Drinks were served on the second while on the first deck dancers grooved to a rock band.

The single adults had also invited several Peoria widows. Steve Geberin.

## **Canning and Freezing**

AMARILLO, Tex. - The local Ladies' Club met July 24 in the Flame Room of the Pioneer Natural Gas Building to hear a guest speaker from the Texas Agricultural Extension Service talk on home canning and freezing. Twenty-five women were present.

Refreshments were served. Susan Keyes.

## New Church in Montana

KALISPELL, Mont. — The new Kalispell church met for its first service July 19 with 73 attending at the Sons of Norway Hall.

Rand Millich, pastor, in the first sermon stressed the importance of a local congregation and unity among God's people. He spoke on the importance of sound doctrine and what the functions of a minister are. Special music was by Mark Gra-

ham at the piano. He played "Song of the Morning," his own composi-tion. Chris V. Holding. **Kitchener** Teen Dance

#### **Pasture** Picnic

ROFF, Okla. - The Ada, Okla., church held its annual picnic in the cow pasture of Mr. and Mrs. Steve Kirk, local elder and wife, here July 13.

The weather was excellent as 200 people joined in. Several from Oklahoma City,

Okla., and Sherman and Dallas, Tex., also came. Softball, horseshoes and havrides

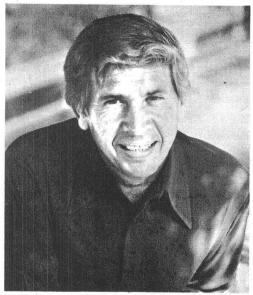

were among the activities. Young-sters climbed a greased pole and competed in a turtle race. *Mrs. Ocie* Young.

[Photo courtesy Capitol Records] you answer, "I cannot work," and the other person sees a strong-looking, healthy individual in front of them, the expression on some faces makes one want to "fall into a hole" and hide. Perhaps if ALL of us could just take the time to think about it deeply, and try to put ourselves in the "shoes" of the handi-capped, we would soon realize that they have a most difficult job to perform. The effects of the affliction is the easiest part of it. Trying to be useful when in society's view (and even our own) we are useless.

Generally speaking Thanks for a really great newspaper

Thanks for a really great newspaper! It's neat to have the ''personal'' contact with Mr. Ted Armstrong and know what's going on. Also, we enjoy getting to know our headquarters ministers and their families. The personal page is fan-tastic, as we read of people we know in other places. The positive that this alone has drawn God's people closer — more like a big family. Being able to share others' achievements, to know of the fan-tastic talents some of our people have and to hear of the different ways the local churches have fun is very gratifying. Our girls enjoyed the info on SEP and want very much to attend next summer. The

Shoes of the handicapped I have noticed many articles on the handicapped in the Church, and have found them very inspiring. There is, how-ever, a group that is frequently over-looked – for a very good reason: They appear to be healthy. These are those who have diseases such as multiple sclerosis and other disorders. These people can ap-pear more healthy than a "normal" per-son.

"What do you work at?" seems like a harmless question, but for some of us we dread the thought of being asked it. When

be country singing star Susan Raye and Mr. Owens' group, the Buckaroos

Mr. Owens is perhaps best known as cohost of *Hee Haw*, a country-music variety series that is rated No. 1 among nationally syndicated television shows, according to the June 14 issue of Variety. And he is the host of The Buck Owens Ranch Show, another syndicated series.

Since signing with Capitol Rec-ords in 1958, Mr. Owens has had ords in 1958, Mr. Owens has had more than 25 consecutive hits, in-cluding "Act Naturally," "Tve Got a Tiger by the Tail," "Together Again" and "Cryin" Time." He has also had 12 albums in the No. 1 spot on the construct mended the res.

on the country-record charts. In addition to his success in the United States, Mr. Owens has become an international star, playing to standing-room-only audiences at the London Palladium and capacity crowds in the Netherlands, Germany, Sweden, Ireland and Japan. He played at the White House at the invitation of President Lyndon Johnson.

Mr. Owens was voted country music's No. 1 artist five years in a row and was selected as Capitol Records' Country Artist of the Decade

In a press release from The Buck In a press release from *The Buck Owens Show*, he talked about the music he plays, sings and writes: "I think that country music comes right from the soul, heart and lips of the American people."

Aside from his musical interests and achievements, he has donated thousands of dollars to charities. Foremost among these is the Kern Radiation-Oncology Center for cancer research, which is being built in Bakersfield, Calif. Mr. Owens is personally underwriting the first \$250,000 of the estimated \$1 million budget for the center.

By Bill Butler PASADENA — John Wilson, administrative assistant in the Mail Processing Center, was elected second-district director of the Associated Square Dancers of California. His district consists of 14 squaredance clubs meeting in and around Pasadena, including the Stardusters Club, which he founded.

A director's duties include visiting each club, sponsoring classes and organizing dances. Mr. Wilson's deputy directors handle matters for clubs he is unable to visit.

The Stardusters Club is made up of Church members. Club caller Darrel Slocum of the Glendale, Calif., con gregation is a former professional caller.

Square dancing is growing by leaps and bounds all over this country and around the world, says Mr. Wil-son. Even Prince Mikasa of Japan is an avid square dancer, he says

## **Elusive** courier carries Gospel

By Bill White CAIRNS, Australia — Copies of the *Plain Truth* were myste-riously disappearing at a tremen-dous rate from the newsstand here, much to the surprise of the newsstand proprietor.

Normally the stand distributes 500 copies a month, but lately business soared to an incredible 200 copies in just two days. The proprietor com-mented that he seemed to be attend-ing the *Plain Truth* stand more than he was his own business.

Finally the phantom courier was caught red-handed. A 19-year-old youth was helping himself to about 20 copies at a time, giving them to his friends and leaving copies at the post office, hospitals and businesses amund town

When the newsstand proprietor asked the youth why he was taking so many magazines, the youth said he was a fan of Garner Ted Armstrong, listens to The World Tomorrow broadcast and enjoys reading the Plain Truth. He added that he wanted to do his part in distributing the mag-azine just for "the glory of God."

PASADENA - Orientation week began Aug. 18 for about 350 fresh men at Ambassador College here, the largest class in Ambassador's his-tory. About 750 full-time students in all are enrolled, according to the Registrar's Office.

About 150 are also expected to enroll in extended-day (night) classes. Students regularly enrolled come from 26 countries and 48 U.S. states, according to the Registrar's Office. Classes are scheduled to begin Aug. 25.

SANTA BARBARA, Calif. -Laura McColm, wife of Lester McColm, pastor of the San Luis Obispo and Santa Barbara churches, who has suffered with metastatic cancer (spreading from one part of the body to another) since August, 1973, said her "condition remains serious, but I am thankful to be able to get about in a wheelchair." Mrs. McColm, 49, has been inun-

dated with hundreds of letters asking about her condition since a friend submitted a prayer request for the personals section of the Nov. 11, 1974, issue of The Worldwide News.

Mrs. McColm said she has received cards and letters from 12 foreign countries, including a letter from the Philippines that all the staff-ers of the Manila office had signed.

"I sincervalue of the national out of the signed. "I sincerely want to thank all our friends for their prayers, love and concern for me during this difficult illness," said Mrs. McColm. "The prayers of the brethren have literally kept me alive this year. I live each day one at a time, grateful to have sight to see God's great creation, knowing that healing is not our ulti-mate goal, and giving God praise for

all things." Mrs. McColm's address is 5326 Mrs. McColm's address is 5326 Paseo Rio, Santa Barbara, Calif., 93111

PASADENA - The Church Administration Division announced the ordination of one preaching elder and two local elders. Elliot Hurwitt of Providence,

R.I., was raised to preaching elder, John Foster of Concord, N.H., and George Hatch of Hartford, Conn., were ordained local elders.

BIG SANDY - The Ministerial Education & Training (MET) De-partment, under the direction of Art Mokarow, will conduct its second Pastor Training School on the Am bassador campus here for 30 minis ters and their wives Aug. 18 to Aug.

The training school was originally scheduled for Orr, Minn., but "logistic problems" forced the meetings to be held in Big Sandy, accord-

ing to Mr. Mokarow. "There was just not enough hous-ing for everyone," Mr. Mokarow said, "plus the fact that the staff would have to stay over an extra two weeks and would not have enough

## **Pastor speaks** to **Baptists**

By P.O. Loch LITTLE ROCK, Ark. — "Last week I preached at a Baptist church," explained Ray Wooten,

pastor of the Little Rock and Russell-ville, Ark., churches, "and I did it on Sunday too." What had happened was that Little Rock's prestigious First Baptist Church, as part of a program called the Training Union, invited ministers of other churches to visit it.

Mr. Wooten was invited, and he accepted. He was told the purpose was so union members could "learn something about other denominations.

Mr. Wooten began by denouncing many things critics had said about the Worldwide Church of God. He pointed out some similarities be-tween the Baptist Church and the Church, and ended his 30-minute talk by tactfully pointing out some of the differences.

Then followed 10 minutes of ques-tions and answers. When Mr. Wooten finished, the

program director came to the micro-phone, and, holding a publication put out by an arm of the Southern Baptist Convention, said:

'I wish the person who wrote this article about your church could talk to you. This article is nothing but a bunch of lies."

## Now you know

BEAVER, Okla. — Eleven-month-old Brad Woodbury, son of Mr. and Mrs. Vance Woodbury, members of the Liberal, Kan., church, knows it pays to come when Mother calls. One of the Fourth of July activities

sponsored by the Beaver Jaycees was a baby-crawling contest. Babies were at one end of a series of mats, mothers at the other. One mother got her child's attention almost immediately and the baby got two thirds of the way to Mother, stopped, turned around and crawled back to the rest of the babies still at the starting line.

Slowly, one by one, babies realized their mothers were at the other end. Each baby began slowly to crawl toward its mother, stopping frequently to look around. Brad, still at the starting line, fi-

nally lost interest in the crowd andnoticed Mother at the other end, telling him to come. He got on his hands and knees and came straight to Mother for a first prize of \$5.
