PASADENA, CALIF.

MARCH 1, 1976

# A Personal Letter

Dear brethren in Christ:

VOL. IV, NO.

Greetings! I am dictating this "Personal" over the middle of the state of New Mexico at 35,000 feet, flying copilot on this trip on my return to Pasadena following a quick trip to Big Sandy.

## **Applicants** interviewed for ministry

PASADENA - Twenty-seven senior Ambassador men, 12 in Big Sandy and 15 here, have been interviewed as potential ministerial trainees by members of the Church Administration Division (CAD), Ambassador faculty members and International Division personnel Nine graduates of previous years were also interviewed here.

The interviews took place Feb. 24 to 26 here and Feb. 9 to 11 in Big Sandy.

Steve Martin of the International Division, one of the interviewers, said the men interviewed are credit to the institution."

He said: "If we don't hire as many men this year as the previous years, it (See MINISTERIAL, page 8)

Because of a lack of time (other commitments kept me from writing the "Personal" prior to departure from Big Sandy), I suggested to managing editor John Robinson that I dictate the "Personal" at some slack point during the return trip. Upon my arrival I will have a secretary in Pasadena call the WN office in Big Sandy and play the recording over the phone. The WN will make a recording of the recording, which will then be transcribed and subsequently typeset, laid out and printed

before reaching you. So, for the first time in writing "Personals" in The Worldwide News, I am dictating into my portable tape recorder from the cockpit of the

#### Canadian Trip

We had a very rewarding trip to Canada (which you read about in the last issue), with a fine turnout at both Edmonton, Alta., and Vancouver, B.C. The Canadian brethren proved be tremendously warm and enthusiastic.

The record of our brethren in Canada of enthusiasm and devotion for the Work is certainly unsurpassed. As articles in the last issue showed, there is going to come a change in the directorship of the Canadian Work within the next few (See PERSONAL, page 8)

GOVERNOR-GENERAL - Herbert W. Armstrong presents a gift of crystal to Milo B. Butler, left, governor-general of the Bahamas, before Mr. Armstrong's Nassau campaign, which began Feb. 20. Holding the gift is Stanley Rader, vice president for financial affairs and planning for the Work, as Osamu Gotoh, the Work's

## Three-night Nassau campaign culminates week of activities

NASSAU, Bahamas -W. Armstrong completed a "successful" week's stay in this capital city of the Bahama Islands that with the included meetings governor-general, prime minister and other notables and culminated in a three-night personal-appearance campaign Feb. 20 to 22.

Mr. Armstrong spoke the first two nights, and Clarence Bass, regional director for the Caribbean Work, spoke the third night, following Mr. Armstrong's Feb. 21 return to Pasadena for the Horowitz concert in the Ambassador Auditorium. (See related article, this page.)

The meetings, held in the Crown Ballroom of Loews Paradise Island Hotel, were emceed the first two nights by Osamu Gotoh, director overseas campaigns, and the third night by Kingsley Mather, preaching elder responsible for the church here, who also spoke for about 25 minutes before introducing Mr. Bass.

According to Mr. Bass, Mr. Armstrong spoke for an hour and 15 minutes Friday night, Feb. 20, developing the same theme he has used in other overseas campaigns, spotlighting man's problems and their true source.

The second night he further developed the theme of man's dilemmas and the impending return of Jesus Christ. "He showed that Christ's return is the only answer," Mr. Balaid.

Stanley Rader, vice president for financial affairs and planning, spoke briefly after Mr. Armstrong's ser-mon the first night and then "spoke eight to 10 minutes" on Saturday night, again following the close of (See THREE-NIGHT, page 16)

## Division heads in Australia for conference

PASADENA — C. Wayne Cole, director of church administration, will join International Division director Leslie L. McCullough in conducting the annual ministerial conference in Australia, to begin March 1, and will be on hand for the opening of the Work's new office facility in Burleigh Heads.

Mr. Cole, who left Los Angeles Feb. 23, stopped in Auckland, New Zealand, en route to Australia and spoke to the church there the Sabbath of Feb. 28.

While in Australia he will conduct combined Sabbath services and special Bible studies in addition to the ministerial meetings. From Australia he will return here via South Africa, South America and Mexico.

## Horowitz performance draws 'ecstatic' response

Vladimir Horowitz made his first concert appearance on the West Coast in 23 years in the Ambassador Auditorium Feb. 22 as part of the latest Ambassador International Cultural Foundation (AICF) concert

Mr. Horowitz performed before a capacity audience of 1,262, according to Bernard Soll, artistic director for the AICF and former music critic for the Los Angeles Herald-

Mr. Soll said the "distinguished audience was absolutely ecstatic and gave him a standing ovation. There are certain occasions in the theater, whether it be music or drama, when all of the various elements that go to make up a performance seem to jell; you get an excitement that is almost difficult to describe in words. This was one of those occasions."

Martin Bernheimer, critic for the Los Angeles Times, wrote:

"His two-hour reunion with old friends on Sunday, courtesy of the Ambassador Foundation, suggested that time has taken virtually no toll on his fingers — or on his equally agile mind. He still plays brilliantly, eccentrically, passionately and irresistibly.

#### 'Not Just a Pianist'

Mr. Bernheimer described the virtuoso as "not just a pianist. He is a master technician, a tragedian, a raconteur, a painter, an iconoclast and, above all, a personality. It shows in every hemidemisemiquaver."

Mr. Soll said Mr. Horowitz

seemed to have a renewed lease on artistic life; he played like a man in

New reader
I want The Worldwide News — "very much." Yes! I enjoy the paper. It brings so much news to me I know nothing about. I was rather shocked — learning about so many churches in and around me, or rather north and south . . .

Misuse of a column

I'm writing to inform you of the misuse of the pen-pals column in *The Worldwide News*. In this case it is not a problem of News. In this case it is not a problem of trying to obtain money, as mentioned by Mr. [Les] McCullough in *The Bulletin* (Feb. 10, 1976), but a problem of receiving unsolicited mail from people attempting to attack the Worldwide Church of God and the Armstrongs in particular. particular.

A number of our members here have received unsolicited and unwanted let-ters, literature and brochures from individuals and groups who want to turn people away from the Church. Most of these letters are unsigned and come from various parts of the United States. The common demoninator is that everyone who has received this trash has had his

who has received this trash has had his name in the pen-pals column.

It is a shame that such a good, and unifying force as the pen-pals column of The Worldwide News is being used by our enemies in such an unethical and cowardly manner. Apparently some individuals glean names and addresses for individuals glean names and addresses for their mailing lists from this column and then proceed to bombard mem with junk mail, more properly hate mail. I understand that . . . you can hardly prevent this problem; however, I realize

that you want to be fully informed on how that you want to be fully informed on how The Worldwide News is being used. Perhaps this letter will contribute to the total picture and provide you with a more complete fund of knowledge to work with.

Recent events have led to people ad-dressed in the WN receiving unsolicited contact from those who have left God's true Church and are intent on its destruction . . . The tremendously helpful letters and cards of concerned brethren ful letters and cards of concerned brethren that have been of such great help in many other cases, that I have seen, are truly welcome. My address has appeared in the WN twice before and I have received such unwanted outside contact. Otherwise, unwanted outside community, www. great job. Keep it up.

Motivating example
My first reaction, after reading about
the death of Mrs. [Vernice] Lochner [Jan.
5] was — how dreadful that the Work of
God has lost her in these times of change
and stress. Then I saw the far-reaching
certainty. The majority of us would never have known the many fine qualities of this lady. Though saddened by her death, I am encouraged and motivated by example.

Problem for 'Postmark'

Why not run a special section entitled "My Problem and How I Solved It"? The best could be selected for each publication. I'm sure we could benefit from such, and even teenagers could participate. Just an idea.

We suggest such articles be submitted for "Postmark," a new column that appears frequently in the WN.

Mr. Nuab, 28, is a Dayak, a member of one of the indigenous tribes of Borneo. We met him at the hotel in Kuching, capital of Sarawak. Since he seemed interested in telling us about his country, I asked him if there were any tourist attractions that would let us see some of the native culture in the short time at our

"Well, yes, but it is not like the real thing," Mr. Nuab said. "If you really want to see Dayaks in their natural setting, I can arrange it."

We discovered that Mr. Nuab is an amateur anthropologist deeply inter-ested in preserving the culture and traditions of his people. He has traveled widely in Sarawak and is well known by many of the headmen in the hinterland villages.

#### Inspecting a Longhouse

At the time, the platform was deserted except for some children and old women. Mr. Nuab seemed on friendly terms with everybody and we were allowed to walk around at will. The native people were superstitious about being photo-graphed and ran away and hid when they saw my camera.

Mr. Nuab asked one woman if we could see inside her apartment. She agreed, after looking us up and down dubiously. The interior of the longhouse apartment was comfortable, with separate bedrooms. a living area covered with bamboo mats and an open cooking fire.

The old lady made us a cup of coffee while two of her grandchildren looked at us, their eyes round with curiosity. But as soon as we tried to photograph them they ran

away.
"Try giving them something,"

Mr. Nuab suggested.

But what? About the only thing I had to spare was a small aluminum film can. I put a small coin in this, rattled it and offered it to the children. At the prospect of receiving such great treasure, they cheerfully posed and smiled for several min-

#### Two Kinds of Dayaks

Mr. Nuab explained that Anah Rais was a land-Dayak village. The Dayaks are split into two main tribes: land Dayaks, or Bidayuh (also called Ngadju), and sea Dayaks, also called

It is the Iban who were the ferocious headhunters of times past. Both peoples live in longhouses, but the Iban prefer the rivers and coastal regions, while the Bidayuh inhabit the interior

The Dayaks are by no means primitive savages, and most of the longhouses have government schools and medical centers. At Anah Rais there was even a small shop selling pots and pans, candles, tools and — would you believe? — Coca-Cola.

At Mr. Nuab's home later, we got to know him better

Although he is a part owner of his family's small rice farm, his main interests are journalism and photography. He lacks formal education but is fluent in English, Malay and several native dialects. A self-taught writer, he has had more than 100 articles printed in local papers and magazines.

He also furnished information for an article about a longhouse that appeared in the Nov. 10, 1975, issue of The Worldwide News

"I want to be a successful writer," he said. "I want to help the Dayak people improve materially and spiritually if I can." Their pagan beliefs and supersti-

tions are hampering their progress, but the wrong sort of western influence, religious and cultural, can do more harm than good, he believes.

"They must preserve their culture yet still have the good things that modern civilization can bring. The longhouse is a good idea. The people live in harmony, communication is quick, and disputes are quickly settled. I should hate to see the longhouse disappear."

## Member saw Dayaks on '56 trip to Borneo

By Wren Barbe

By Wren Barbe
Little Rock, Ark., Member
HOT SPRINGS, Ark. — The
news that "two of our members in
Sarawak are from a tribe of Dayaks" is to me especially interesting ("Face to Face With Southeast Asians," The Worldwide News, Nov. 10, 1975). They could be among those who attended a council meeting at a certain Dayak longhouse the after-

noon of June 8, 1956.

It was a curious assortment of mortals who sat on that huge bamboo mat just inside the main entrance to the longhouse. Present were three Dayak chieftains; a Dayak theologi-cal student; a lay minister from Sumatra, of a tribe formerly cannibalistic; an American Methodist missionary; and Wren Barbe, tourist.

#### Head-Hunting Heritage

Squatting around the mat, edging close, was a squirming mass of children, adults, dogs, cats, pigs and chickens. Relics of my hosts' head-hunting heritage were not hard to find, for, in one corner of the wide communal room that ran the length of the longhouse, a cluster of human skulls stared down with vacant grins as they swung casually from the ceiling like a bunch of coconuts. Perched on stilts perhaps 12 feet high, the crude dwelling housed some 50 or 60 families in large, square rooms that opened off the communal room. I was given a brief look inside one of these family living

How did I happen to be at the meeting? I didn't just happen to be there, of course. While working in Japan as a civilian employee of the Department of the Army, supervising enlisted men's recreational clubs in the Special Services Division, I had taken a 30-day swish through Southeast Asia.

The young Japanese man who arranged my itinerary at Japan Travel Bureau (JTB), Tokyo, accepted without murmur my expressed inten-tions of stopping off at the Philiptions of stopping off at the Finippines, Singapore, Djakarta, Bali, Bangkok, Siemreap, Phnom Penh, Saigon and Hong Kong. But Borneo? "Borneo!" The incredulous agent kept protesting this absurdity all during the weeks he worked on the

"But, ma'am," he lamented repeatedly, "JTB has never sent anyone to Borneo. We don't know what's there."

#### Two Stalling Officials

"Well," I urged, "if you'll just send me to Borneo, I'll report back and tell you what's there." (And I

However, my friendly adversary was filled with misgivings. Where would I — a woman traveling alone stay? How would I arrange to visit a longhouse? To every question I replied, "Wait till I get there."

During this delaying action at JTB, the British embassy had been stalling with my visa application. But when the two officials found they couldn't dissuade me, they gave up.

In Labuan, North Borneo, the airport manager directed me to Sibu, in Sarawak. (North Borneo is now Sabah.)

"There are some longhouses on the Rajang River," he said, "but I don't think there are any hotels in Sibu." And there weren't.

In a plane high over the dark green of the dense Borneo jungle, I gazed down and said to whomever it may have concerned, "You don't know it yet, but you're going to help me visit a longhouse."

Somebody did. Several some bodies. First it was the startled young Chinese officials at the Sibu airport. I explained why I was there, then sat back smiling, confident they would take care of me. Recovering from mild consterna-

tion, they huddled their heads together, literally. Then, pleased and relieved, they called a taxi that took me to the tropical home of two exceedingly amazed American Methodist missionaries, Mr. and Mrs. Louis Dennis, and their 7-year-old daughter Rosalie.

That was June 7. On June 8 Mr. Dennis made a planned pastoral trip down the Rajang River to two longhouses belonging to sea Dayaks, or Iban, and invited me along. In the spacious Dennis house were two guest rooms maintained by mission for its visiting dignitaries.

Thus, for a nominal charge, I had three days' lodging, meals and maid service, plus a free tour guide and the companionship of a delightful fam-

ily. Simple, JTB. Simple.

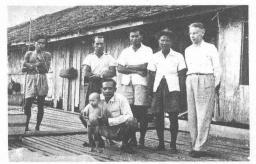

#### The Council Meeting

Bawang Assan was the name of the first longhouse we visited.

Further downriver, at the 16-mile point, the council meeting was held at the longhouse that I will designate as the Host, because I have forgot its

The reason for the meeting, requested by the Dayaks, was for final deliberation by the Host house before deciding to be baptized by Mr.

Bawang Assan residents already had been baptized and, wishing to encourage their neighbors, sent along to the meeting their ruling

the Originally Mission's ministry in Sibu had been confined to the Chinese population, but one day a delegation of Dayak warriors from Bawang Assan came knocking on the Dennis door with the earnest petition that they too be given an opportunity to learn of this "strong Jesus religion."

#### Felt No Fear

I couldn't believe I had sat among the fabled "wild men of Borneo" and watched them in the intimate process of deciding to leave an old way of life and enter a new one. My plan had been to "barter with the natives." as crass tourists are wont to do, but the dignity and intelligence and gentleness of these people made me ashamed of an attitude that now seemed condescending and un-

I felt no fear of the Dayaks, but navigating the treacherous Rajang was a hazardous experience, espe-cially after dark. Its chief perils lay in crocodiles and submerged logs.

However, it was neither log nor crocodile that supplied the action. It was a small wooden cabin raft, floating silently in the thick fog without warning lights, apparently uninhabited. Just in time it loomed out of the mist into view. Instantly the boat swerved, but not enough.
With a thunderous crunch it sideswiped the cabin only inches from

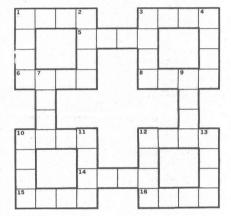

A split second later and the force of direct impact surely would have either splintered the boat into kindling or capsized it.

About nine years after that June 8, I first heard God's truth regarding the "strong Jesus religion." Merely meeting a few people of Borneo had

been for me an improbable dream and extravagant imaginings could I have envisioned the circumstances that today make it possible to call some of them brethren!

### Minister explains sin on TV show

By Richard Taylor JACKSONVILLE, Fla. — What sin is was explained by Jacksonville pastor Fred Boyce on a television program, Religion Is Relevant, here Feb. 8.

Moderated by Dr. C. Earl Cooper of Riverside Baptist Church, the panel show featured Dr. Malcolm Knight, another Baptist clergyman, and Mr. Boyce.

Dr. Cooper noted the importance, yet seeming intangibility, of the subject. Then he introduced his guests.

Quoting I John 3:4, Mr. Boyce painted a clear picture of sin, "the transgression of God's holy and righteous law as summed up in the Ten Commandments."

Other questions from Dr. Cooper prompted the ministers to express their beliefs on original sin, the fate of children who die before the "age of accountability," the resurrection, redemption, conversion, growth toward perfection, the state of the world in regard to sin, what can be done about this and what the business

of the Church is.
On this last question, Mr. Boyce stated pointedly that "the business of the Church is to teach people what sin is and what to do about it, and how to

overcome it."

The atmosphere was cordial throughout the program, though there were a few disagreements. Dr. Cooper appeared impressed with the television presence and the bold, calm remarks of Mr. Boyce. Because of Mr. Boyce's reliance on the Bible itself rather than others' opinions, Dr. Cooper stated in his summary: 'At least Fred has indicated that we must keep the law, and I think Malcolm would acquiesce to that

Mr. Boyce was asked to appear on the program after Leon Wiggins, a member in nearby Lake City, wrote to the show requesting Mr. Boyce be invited

When nothing happened, he wrote again.

This time Dr. Cooper called Mr. Boyce, asking him not only to be a guest, but to choose the topic as well.

It's not over yet. Dr. Cooper was pleased with the program and after it was taped asked Mr. Boyce to come

'I hope you will respond. But next time we'll just be talking about one

thing."
"What's that?" asked Mr. Boyce. Worldwide Church of God.

new enthusiasm.

The peak of the program was during services Jan. 10. Mr. Boyce gave a short sermon, after which the tests were administered to two age-groups in both churches: 8- to 11-year-olds and 12- to 19-year-olds. (Children 3 to 7 participated in a

Grand-prize winners, each awarded a watch, were Diane Carter and Angela Hahn for their notebooks and Phillip Short and Rod Lewis for their test results.

CAMEROONIAN VISIT - Geneva minister Bernard Andrist met these and other Cameroonians in December. Because of growing interest generated by the French Work in the African country, Mr. Andrist toured Cameroon for three weeks.

### Minister visits Cameroon

By Thomas Rogers
PASADENA — Though a little larger than California, Cameroon has only six million inhabitants (California's population is about 20 million). But there are more subscribers to La Pure Verite (the French Plain Truth) in Cameroon than in any

other African nation.

In order of numerical importance Cameroon ranks ninth among the 150 countries and territories into which La Pure Verite is sent.

Because of the growing interest generated by the French Work in Cameroon, Bernard Andrist, local elder and manager of the Work's office in Geneva, Switzerland, toured Cameroon for three weeks in December. He baptized 22 people bringing to 29 the number of French-speaking members in that country.

Several prospective members traveled considerable distances to meet Mr. Andrist. Some came with long lists of Bible questions, he said.

Besides spending hours counseling and baptizing, Mr. Andrist ordained the first French-speaking deacon in Africa, Abel Watat, who had been one of the first members baptized in Cameroon.

Most Cameroon members are not married. This may be because local marriage customs, which, though no longer enforced by the government, continue to be widely observed and require the payment of sizable dowry to the bride and her family.

Mr. Andrist reported no major problems during his stay. Perhaps his greatest difficulty was being mistaken for a Jehovah's Witness, a sect that has been banned in Cameroon. This created some tense moments with officials until Mr. Andrist convinced them of his religious affiliation.

Compared with many other African nations. Cameroon is prosperous and progressive and offers promise for growth of the French phase of the

### 91-year-old makes dolls

FONTANA, Calif. — Mabel Hamilton, 91-year-old member of the church here, has a rare talent: She makes dolls

Last spring she won a sweepstakes award from the De Anza District of the California Federation of Women's Clubs for a three-doll display, then went on to win a blue ribbon for the same display at the federation's state convention in San Diego later in the year.

STILL ACTIVE — Mabel Hamilton, left, displays one of the dolls she makes. At right are some of her dolls close up.

Mrs. Hamilton has her own kiln and molds, some of which, she says,

are almost priceless in the industry.

The doll heads are molded and baked in the kiln, then she designs, sews and stuffs the doll bodies. The intricate doll clothing, including corsets and pantaloons, is also designed and made by her.

Despite failing eyesight, she still akes dolls, paints landscapes and portraits and paints designs on china.

Another lifelong hobby: She writes poetry.

Mrs. Hamilton started receiving literature from the then Radio Church of God in 1960; she was baptized five year :0. Her husband died in 1900, and she has lived alone since then in a semiconverted schoolhouse, a project she and her husband began shortly before his death.

In fact, her home was the first schoolhouse built in the Nuevo, Calif., area. It's a museum of sorts. as is her workshop.

According to Bob Smith Fontana associate pastor, she has joined a growing number of members in the area in whose homes Bible studies are held.

Although she celebrated her 91st birthday in January, she is still active, Mr. Smith says.

Mrs. Hamilton is the mother of four children, three of whom survive, and has 11 grandchildren, 45 great-grandchildren and four great-grandchildren.

"Mrs. Hamilton continues to be a vivacious asset to the Worldwide Church and the community at large," Mr. Smith says.

'She, in all her regality, is more of a doll than those which are her handiwork."

"After the men came to their senses, after receiving such a jolting experience, the men looked around to see if anyone was injured," Mr. Robinson later said.

One man was missing. "He was found in a corner about 30 feet away from where he was originally standing. This man received the full

blast from the exploding pump."

But his only apparent injury was a bump on the head, and he was in

#### Complexion care

About 28 years ago I discovered several ways to improve my complexion. The first is pinch massage, which brings blood to the surface of the skin to carry away oil, dirt and bacteria from clogged pores.

Gently pinch skin on the forehead, working upward, then around eyes, very gently, outward and over back to the nose. Pinch the nose. Pinch from chin to eyes, around mouth, across chinbone and from upper ribs over neck to chin and to hair in back of neck.

Do not be alarmed if blackheads r whiteheads appear. They will disappear in a few days. Lines and wrinkles will also be at least partly erased.

Second, once a week, or as often as needed, make a cosmetic pack with one teaspoon of soy flour and one teaspoon of warm water. Apply to face and neck for a minute or two, then rinse with warm water.

Third, each evening before retiring wash skin gently with quite warm water and a mild soap. quite warm water and a mine soap.

Employment victory
In 1967 when my husband died I went to work at Norton Elemen-tary. Each year my son and I were able to take off for the Holy Days, but then management changed and in September, 1972, I lost my job when my son and I attended the

Feast at Mount Pocono.
Finally, after 2½ years, the Equal Employment Opportunity Commission investigated my case, and six months later the EEOC rendered a decision in my favor. Negotiations are now being made for a settlement, and I hope a return to work at Norton Elemen-

tary.
The EEOC very specifically states the proof of discrimination in three pages. I feel that this was not only a victory for me but also for the Church.

#### Presidential pardon

. I received recently [a letter] concerning a presidential par-

This pardon involves a Selective Service violation for which I

spent time in prison. The WN spent time in prison. The WN featured an article about my situation in the April 1, 1974, issue on page 4, entitled "Culture Shock of Prison Helps Ex-Inmate Spiritually."
While on parole, my parole officer advised me that I was

eligible for consideration under the newly established Presidential Clemency Board, I followed his advice and applied for clemency. Following this were several letters back and forth between the Clemency Board and myself. Finally, about a week ago, the

very exciting news arrived.

Soon I expect to receive an individual warrant of pardon from the attorney general.
I've thought about what I could

I've thought about what I could say to express my appreciation to all people involved — from the WCG ministry to the governmental officials — and one thing has really stayed in my mind. I think it really is the only meaningful thing which can be said!

I really believe that it is more blessed and honorable to give than to receive . . . and the presidency has given me something with absolutely no strings attached! The President of the United States is very honorable in this as far as I'm concerned, and surely that attitude of forgiving and of giving will bring positive rewards to those responsible.

Now, to make all of this relevant to us, may I add one note in closing:

All during my imprisonment I saved every single envelope which Mr. HWA sent in letters to co-workers and members — and they have all been used! I call that uplifting revenge! I often thought of how useless I was to God's Work in the area of financial support while there in prison — yet I planned and hoped and brought the envelopes out through all those bars and locks and used each and every one!

Isn't there something about a right kind of revenge that Paul mentioned in II Corinthians 7:11? Well, mine was a revenge against not giving enough to the most meaningful Work on earth.

I know God blessed me for this in several ways. This one I would like to share with you.

months, but we are positive the same enthusiasm and warmth will continue among the Canadian brethren.

#### Trip to Egypt

I will be leaving Feb. 29 for another trip to Egypt. While I'm personally not looking forward to the trip, I feel it's necessary. Our television crew has already been on the spot for nearly 10 days.

Our video pod was shipped by airfreight to Egypt a day or so before our television crew departed from Los Angeles, and, while I have not heard from them since their departure (it is virtually impossible to call into Egypt or to communicate from Egypt to the United States or other countries because of incredibly inefficient communications systems, antiquated telephones and frequent interruptions or breakdowns in electric power), I expect they have been very busy in shooting the background footage required at the several locations we had in mind (including the Aswan High Dam, the Suez Canal, Cairo, etc.) and will be ready for some of the interview segments of the program upon my arrival.

Even though quite a large number of our students and several on our staff have been stricken with the recent epidemic of the flu, I have managed to escape it. I was saying to Dan Spencer only a few minutes ago that, even though I would not look forward to a bout with the flu, I would almost welcome whatever reason might prevent me from having to make a return trip to Egypt at this time.

Since there is a constant possibility of contracting "pharaoh's revenge" (in other Middle Eastern countries variously called the "Jordanian jog," the "Lebanese lurch," the "Arabian agony" or "Israeli ick"), believe me, I never look forward to a trip to the Middle East. For some reason their particular brands and varieties of bacteria don't mix well with the brands and varieties of fluoridated, chlorinated American water!

At any rate I have been assured that the interview with Egyptian President Anwar el-Sadat is a 90 percent or better possibility, and, because of our own commitments to leaders high in Egyptian government, it was thought by all concerned, most particularly Mr. Adli Muhtadi, our director of Arab affairs, that i should continue with the trip as planned.

#### Cleveland Campaign

Only within a matter of weeks after my return, I will head for Cleveland, Ohio, for a campaign in the month of March!

I do not know at this moment whether we shall attempt to televise the Cleveland campaign, but, as was mentioned in the last issue, I did televise a regular Sabbath-day sermon in our Ambassador Auditorium some few weeks ago as an experiment, in hopes that we could edit the material and produce either a one-hour television program or perhaps two regular half-hour weekly programs from a Sabbath service.

The possibilities are of course limitless — meaning that by using our portable video pod I could be televised at various appearances before civic clubs or other organizations (I am to speak before a huge fair in Canada a little later on in the spring), at one or two of the Feast of Tabernacles sites during a sermon, at normal Sabbath services, forums, assemblies or other special occa-

This would maximize the use of

my time and of course would give us the kind of flexibility and variety in our telecasts we are looking for.

#### 'Hee Haw' Response

I had scanned through a little bit of the mail following the guest appearance I made on Hee Haw and am pleased to report that it was 90-some percent overwhelmingly in favor and enthusiastic!

However, there were a few sour notes, including a letter from at least one person who thought I had committed an "unpardonable sin" by appearing on such a frivolous show! (I couldn't help but wonder why he was watching it.)

However, hundreds of letters did come in which expressed varying degrees of enthusiasm, and many wondered when such an appearance might occur again.

I want to clarify, as I believe I explained long before my trip to Nashville for the taping session prior to the campaign in Kansas City, that I did not seek an invitation to appear on Hee Haw. The invitation came as a result of our having contracted for Buck Owens and the Buckatwos to appear at several of our Festival sites during the Feast of Tabernacles in 1975.

Buck, the group and his manager were so impressed with our people that the invitation came as a result of the very pleasant contact during the many hectic days of travel to the many Feast sites as Buck and his group performed for thousands of our brethren.

It was done out of friendliness and sincerity — and out of a genuine belief that the audiences who usually watch Hee Haw would enjoy an appearance from me. I told all of those on the staff that I did not want to be a part of any of the more frivolous segments of the program, telling jokes or standing up in the corn patch to shout out one-liners, but I would sing or perhaps be involved in any discussion. As everyone knows who watches Hee Haw, it is more like, a country-western version of a show which was nationally famous some few years ago called Laugh-In.

The short, punchy jokes featuring many different personalities and cameo appearances by country-western stars are some of the hallmarks of the program.

I did not feel it would be beneath my dignity, even if it was a little out of character, to sing on the program and so consented to do so. Frankly, I am thankful I was out of the country when the program aired and did not have to endure the embarrassment of sitting in front of a television set watching the performance, or I probably would have felt like crawling under the sofa to hide.

However, I am pleased that the reaction was overwhelmingly in favor. And if at any time in the future another such invitation comes I very likely will accept it!

#### Reluctant to Go

On a personal note, one other reason I am a little reluctant to take the upcoming trip to Egypt is that it is going to mean I will be several weeks late in getting in my annual home garden!

Just before leaving Big Sandy this morning I had the pleasure of a brief vehat with Dick Raymond, an author on home-gardening methods, who was visiting the Big Sandy campus. He presented me with one of his gardening books. He and Zoell Colburn, an Ambassador faculty member who teaches a gardening course there, had just appeared on a Tyler, Tex., television station for an interview that morning on the subject

of home gardening.

For quite a number of years my family and I have enjoyed our own homegrown vegetables and now have a small hothouse in which we can grow some items the year

amund

Actually, because of such a warm climate, if I had the time required, I am sure I could have quite a flourishing garden through the entire year in Pasadena!

year in Pasadena!

But, with the buds beginning to already blossom and new growth everywhere in California (and even in Texas!), it is time and past time I had a good-sized garden in and growing.

I noticed in an article in the Feb.

16 WN that there were tips on how to grow vegetables even though living in a city. I had brought up this precise subject to Mr. Raymond and mentioned to him that I had said a few things about home gardening and the need to produce more of our own

food, not only from the point of view of saving money, but even from the survival standpoint, as well as personal physical health and the deep psychological advantages and benefits to be gained from a family working together in a garden. The idea came that at some time in the future, if we are doing another program either on the subject of agriculture or gardening, that I might include an interview with this gentleman.

Perhaps, upon my return from Egypt, I can sneak in a few hours for two or three mornings in a row to at least get part of the garden planted!

least get part of the garden planted!
That's it for now. I have been recording this with interruptions from time to time for communication

with Albuquerque Center. We are flying along now over the state of Arizona with the mountains above Flagstaff visible out the right window and Meteor Crater plainly visible just out the right side. We plan to get in to Van Nuys Airport and arrive back on campus by midaftermoon, where I have several appointments awaiting me before some time for exercise later this evening.

later this evening.
So, until my return, or at least the next time I have an opportunity in these pages, I'll sign off with one more hearty THANKS for the continued flow of tremendous letters of support and encouragement so many of you have sent!

Dozens of friends turned up to wave him good-bye. They included other elderly residents of the warden-assisted court and school-children who have got to know Mr. Hallam over the last few years.

Mr. Hallam, who was in the army for 30 years and served as a sergeant in the Royal Lincolnshire Regiment, came to live in Curtis Court when it opened nearly three years ago. Before that he lived on the nearby Grange Estate.

Schoolchildren who passed Curtis Court on their way to Sandy Lane and Court Moore schools soon began to watch out for his cheery wave.

And it was not long before Mr. Hallam was holding regular tea parties for the youngsters. He got to know the mums and dads too, and was included in many family outings and parties.

## No. 7: It's perfect for family

PASADENA - "I had to ask my husband twice before he told me what the baby was, he was in such a state of shock," said Mrs. Robert Black of Pasadena.

Many fathers have found themselves in such a predicament after their first son, but Robert Black of the San Gabriel Valley church, which meets here, had a special situation: It was his seventh child but his first son.

Mr. and Mrs. Black had their first on, Robert Ellsworth Gilbert Black, Jan. 29 after having had six daughters, whose ages range from 2½ to 13.

Mrs. Black says the announce-ment of the birth of the boy was applauded in the four Pasadena services the next Sabath. A friend told her the congregation that meets

in the afternoon in the Auditorium cheered the announcement.

The Blacks have received cards from all over the United States congratulating them on the boy.

Mr. Black moved to Pasadena in

1960 from Pennsylvania and worked for Ambassador College for five years in construction. He is now an electrical contractor.

Mrs. Black, originally Rosalie Boehrn, moved here with her parents from South Dakota in 1959. She attended the now-closed Imperial High School her last two years.

The Blacks were married in 1961. Their six daughters are Kathleen, 13; Susan, 12; Kelley, 10; Stacey, 8; Bobbie, 5; and Brooke, 2½. Their son Robert's middle names, Ellsworth and Gilbert, are after his grandfathers
